CLAIM PICTURE OF WOMAN IN PRIEST'S ARMS IS A TRICK.

Several Arrests Are Made In Italian Church Squabble.

CRIMINAL LIBEL IS CHARGED.

Declared Photograph Published of Priest in Compromising Position Was Made by Placing Heads Upon Another Picture and Taking Photo Of It.

Another chapter in the quarrel that has occurred among the congregation of Our Lady of Mt. Carmel Italian Catholic church was recorded yesterday when five Italians were arrested for criminal libel, as the result of the publication of a picture in "La Preble," an Italian Socialistic paper, in which it was alleged that the housekeeper was in the arms of the priest.

Those placed under arrest were Nicolande Agostino, a shoemaker; James Mascaro, a wholesale fruit dealer; Thomas Galusso, former sexton of the church; Carlo Tresca, editor of "La Preble," and his wife Helga Tresca, publisher of the Italian paper of Pittsburg. The warrants charge criminal libel.

The trouble dates back to the time of Rev. Joseph Sabato's return from a visit to his home in the old country. He was given a leave of absence to visit his home by Right Rev. Bishop Canevin and spent several months there. Upon his return there was a part of the congregation who desired that Rev. Angelo Messina, who had been sent to the church to officiate during Rev. Sabato's absence remain. A few days after his return the picture purporting to have been found among the priest's effects during his absence was published in the Italian paper. It raised a great furor, but Rev. Messina before leaving was exonerated of all blame in the charge that he had gone through Rev. Sabato's effects during his absence and secured a picture of that kind. Bishop Canevin directed that he remain at the church until the former pastor returned and this he did. He said that he had no further charge there and this ended the strife among the congregation as to who was to be pastor of the church. The majority it is said favored Rev. Sabato and wanted him continued.

This, however, did not settle the difficulty about the picture and the friends of Rev. Sabato started an earnest effort to locate the source of the making of the picture, with the result that it is alleged that Sexton Galluso secured the picture of the priest in the house, turned it over to Mascaro, the fruit dealer, who in turn turned it over to Frank Chircosta, the photographer, who placed the priest's head on another picture along side that of a woman and made the photograph which appeared in "La Preble." Agostino, the shoemaker, gets into the case on the allegation that he conveyed the photograph to the Tresca's and they published it in their paper, with the statement that it was Sabato in the arms of his housekeeper. It is alleged by the prosecution that it is possible to place the faces of any person on any picture by photography and that the picture of a man and woman in each other's arms were used with the faces of the priest and the woman.

It is alleged that since Rev. Sabato's return to Connellsville Frank Chircosta, the North Pittsburg photographer, who is charged with making the picture, has gone to Italy and is now living there. County Detective Alex McGeth went to Pittsburg yesterday morning and County Detective Frank McLaughlin and Constable Milton Morris remained in town all day. Upon receiving word from Pittsburg that the parties there were under arrest the officers placed the local men under arrest. The Tresca's were taken to Uniontown and gave bail in the sum of $2,500, P. Bufano of Connellsville furnishing it. The local men gave bail before Magistrate W. P. Clark in the sum of $1,500 each. Mr. Bufano furnished $1,500 for Nicolando Agostino, while Mascaro and Galusso each furnished bond for the other. Both are property owners and quite well to do.

Body Brought From Colorado.

Funeral services will be held over the remains of the late George F. White, who died last Saturday in Denver, tomorrow afternoon from his late residence in Brownsville. The body will likely arrive in Brownsville this afternoon or tomorrow morning.

The Weather.

Fair tonight and Saturday are the predications at noon.

DEPOSITORS TO GET ANOTHER PAYMENT.

Receiver Murray of Defunct Farmers and Merchants Bank at Mt. Pleasant is Active.

MT. PLEASANT, Nov. 13.—Receiver H. G. Murray of the defunct Farmers and Merchants Bank has announced his intention of delivering to the depositors of that institution another 25 per cent. payment. This does not mean that the checks for this payment are ready for distribution, but that all the checks must first go to Washington where they will receive the signature of the comptroller or officials acting in that capacity. They are then forwarded to this place where distribution will begin.

With this payment the depositors will have received one-half of their money, the first dividend having been paid some time ago. There has been no time set for the payment of this money, but it is reasonable to suppose that checks will be ready for distribution early in December.

Every effort is being put forth to dispose of the valuable securities and if this should prove successful the depositors would soon receive dollar for dollar.

DARR MINE SURVIVORS TO GET ABOUT $37,000

Meeting of Trustees of Fund Held in Pittsburg Yesterday When New Treasurer Is Named.

PITTSBURG, Nov. 13.—There still remain $37,033.01 to be distributed among the survivors of the Darr mine disaster, which occurred at Jacobs Creek last December, when 238 men were killed by an explosion of gas. This developed at a meeting the Executive Committee of the Darr Relief Fund held yesterday afternoon in Mayor George W. Guthrie's office, and at which Mr. Guthrie presided.

James J. Donnell, vice president of the Fidelity Title & Trust Company, was elected treasurer of the fund to succeed the late John B. Jackson, who worked untiringly in securing aid for the mothers, wives, sisters and children of the mine victims until the fund reached $36,660.21.

At the meting it was stated that just a few days before Mr. Jackson's death he had some misgivings regarding the safety of a small portion of the fund, and ordered the money placed in what he deemed more reliable keeping. Resolutions of regret were passed by the committee on the death of their late treasurer.

A report was submitted concerning the fund and settlements made on survivors. There is now a balance of $37,033.01 in the treasury, and this will soon be distributed. The survivors of 196 American miners have received benefits from the fund, and six claims for benefits from relatives of native-born miners have been rejected. One hundred and six foreigners have been paid death benefits, nine claims were rejected and the consuls of foreign countries are investigating the claims of other survivors of miners who met death in the mine.

FOUGHT TO PREVENT MINE BEING FLOODED.

Desperate Relatives of Victims Attack Men About to Turn on Water—Troops Called Out.

United Press Telegram.

HAMM, Westphalia, Nov. 13.—In the desperate hope that some of the 300 or more entombed miners in the Radbod mine might have survived the explosion and flames that wrecked the mine the grief crazed relatives of the victims today made desperate effort to prevent the engineers from flooding the mine. They begged the mine officials to make one more effort to rescue the men and when the demand were denied they fought those in charge of the work like madmen.

A cordon of troops was finally called and soldiers stationed themselves around the pit in which more than 300 lives have been sacrificed. The mine is being flooded and it is hoped to have the flames extinguished before night. Engineers say there is absolutely no doubt that all of those in the mine are dead.

BURGLARS MAKE SECOND HAUL.

Visit Fairchance Store Again Last Night and Get $70.

FAIRCHANCE, Nov. 13.—Early this morning the store of Samuel Golden, near the Pennsylvania depot, was broken in and about $70 worth of goods was taken. Entrance to the store was gained by breaking the glass in the door.

This is the second time within the past three months this store has been burglarized. On the previous occasion Gordon lost about $50 worth of goods which was never recovered.

MALTA KNIGHTS TO GO TO BELLEVERNON.

Lodgemen From Western Pennsylvania to Gather at Bellevernon.

PROMINENT MEN TO BE PRESENT

Several Members From Local Commandery Will Attend and Prof. J. Buell Snyder of Perryopolis Will Make Address at Session.

Members of the local commandery of Knights of Malta will go to Bellevernon on Monday evening, when a meeting of all the commanderies in the Central Monongahela Valley will be held. Several grand officers will be present and address the meeting. This is the second of a series of such meetings to be held this winter, from which much good to the order and its members is expected to result.

An excellent program has been arranged for the gathering by C. H. Truxal of Bellevernon, deputy grand commander of Group No. 45, through whose efforts some of the most prominent members of the order in the State have agreed to make addresses. These include Alfred E. Corns of Wilkinsburg, grand junior warden, who will give a brief Malta history; Jasper T. Sembower, of Uniontown, grand captain general, who will speak on "Malta and Good Citizenship," and John H. Hoffman of Philadelphia, grand recorder, who will talk on "Malta as an Order."

Mr. Hoffman is a past supreme commander and the present supreme instructor, and is today the best posted man in the work of the order on the continent. He has visited the commandery here on several occasions and is always given an ovation. Others who will speak at the union meeting are Prof. J. Buell Snyder, of Perryopolis, principal of the Ferry township High School, who has been assigned the subject "Malta as an Educator;" W. H. McMasters of Monongahela, who will speak on "Malta in Every Day Life," and M. Clyde Kelly of Braddock, editor of the News-Herald, who will talk on "Malta and Fraternalism."

Growing rapidly, the Knights of Malta now has a large membership in the Monongahela Valley. The order is one of the oldest in existence, dating back to A. D. 1048, when the Knights Hospitallers was organized at Jerusalem. From this body the present Knights of Malta is directly descended.

CHINESE EMPEROR DIED THIS MORNING.

Had Been Ill For Some Time and Dowager Empres Has Ruled Empire.

United Press Telegram.

PEKIN, Nov. 13.—Kuang Hau, Emperor of China, died this morning at the Imperial Palace after an illness of many months. The announcement of his death has occasioned no commotion in the Empire as it had been expected for a long time. For several days it had been known that the Emperor was near death. The details have not yet been given out to the public. His death is still denied by some of the government officials, who fear to alarm the Empire by reason of the serious illness of the Dowager Empress, the virtual ruler.

The Emperor was 37 years old, and had suffered for several years from nephritis, which ailment later became complicated with diabetes and sciatica. His mind became affected and though much secrecy was thrown about his condition it is known that for a long time he had been mentally irresponsible.

Kuang Hau, or Kwangsu, succeeded to the throne in 1875 on the death of his cousin, Tung Chin. He became of age and assumed nominal charge of the government in 1887. Two years later the Emperor married a niece of the Dowager Empress and for nine years took a fairly active part in government affairs. About 10 years ago his health failed and the Dowager Empress assumed virtual rule, which she has never relinquished. The Emperor left no children.

Congressman Thanks Squire.

Squire Frank Miller is the proud possessor of a congratulatory letter from Hon. John M. Reynolds of Bedford county. Squire Miller sent him a word of congratulation upon his reelection to Congress. The men were neighbors together when boys and Congressman Reynolds felt deeply gratified in hearing from his old time friend.

Coldest Day of Year.

This morning was the coldest of the fall. Ice formed in many places.

PAL "PEACHES" AND BRASS THIEVES ARE BEING ROUNDED UP.

Dissatisfied With Division of Spoils He Tells of Many Thefts.

THOUSANDS OF POUNDS STOLEN

Two Arrests Have Already Been Made and Others Will Follow of Thoroughly Organized Gang Which Stripped Cars Near Here.

The arrest of Milton Shipley last night by Constable I. Painter Crossland brings to light another systematic effort the officers are making to stop the stealing of brass car journals from the railroad companies, and discloses the fact that these thefts were wholesale. It is said that warrants have been issued for the arrest of eight more men connected with the wholesale stealing of brass from the railroad companies and that there are at least 25 mixed up in the thefts. It is estimated by the Baltimore & Ohio officials that they have lost by these depredations over 1,000 pounds of brass, the Pittsburg & Lake Erie 800 pounds and the Pennsylvania Railroad Company 600 pounds. The brass is valued at 28 cents per pound.

The arrest of Shipley followed a wreck at Coalbrook in which four cars were smashed up. Evidence lead to Shipley having taken the brass and it is said that he disposed of it to Louis Sapolsky, the local junk dealer, and Sapolsky was placed under arrest last evening charged with receiving stolen goods. He gave bail in the sum of $500 before Squire S. S. Kern of South Connellsville. Shipley is being held in the local police station to await a hearing and the detectives of the B. & O. and Constable Crossland are searching for others of the gang which they claim have been carrying on the work with regularity.

It is said that the existence of a gang of brass thieves was unearthed through one of the young men becoming dissatisfied with the division of the spoils and that he gave the facts away, implicating a large number of men. Captain Moran of the B. & O. force received the information and set his men at work at once, and the information that he secured from the young man has been verified in a number of cases.

The officers connected with the arrests state that the present crusade is the culmination of the work started some time ago to round up the brass thieves and although they received information from one of the gang, they had prior information upon which they were working. It is further stated that a number of railroad employes have been engaged in robbing the cars of the journals. There are eight of these journals on one car, and each of them weigh 12 pounds. Since the repairing of cars has started the heavy loss is being discovered.

COFFMAN WINS HIS CASE FROM RAILROAD.

Awarded Damages by Jury in Land Discussion—Last Case of Week.

UNIONTOWN, Nov. 13.—The final case on the calendar this week was disposed of when a jury returned its verdict in the suit of William A. Coffman against the Connellsville & Monongahela railroad. The jurors were then discharged and the week's term of civil court came to an end.

Beginning Monday morning the court will take up a week of equity cases, Judge Van Swearingen presiding in Room No. 1 and Judge Umbel in Room No. 2.

In the Coffman case the plaintiff was awarded $2,991.68 damages, this being greater than the viewers award of $2,500. The railroad company thought $828 was sufficient, while Coffman wanted $5,000.

Children Roasted Alive.

ALLIANCE, O., Nov. 13.(Special.) Four children, the youngest four years old were burned to death today when fire destroyed the residence of J. H. Wampler, a dairyman east of this city. One child escaped badly burned. Wampler was badly injured in a vain attempt to rescue his little ones.

Gotch to Meet Hackenschmidt.

LONDON, Nov. 13.—(Special.)—Frank Gotch, the American wrestling champion, and George Hackenschmidt the "Russian Lion" met in London today, shook hands, buried their differences and began negotiations for another match which will probably take place early in March.

TROTTER PLANT TO BE IMPROVED.

Frick Officials Decide Upon Repairs and Equipment at Works.

WILL COST ABOUT $50,000.

When Completed Trotter Will Be One of Best Plants in Country—Safety Device for Protection of Men in Mines Novel Feature.

Frick company officials yesterday spent a busy day at an inspection of the Trotter plant of the company, and as a result of the visit it is stated that the company contemplates the expenditure of $50,000 in improvements at the works. The company has just completed the installation of machinery, pumps, drainage pipes and water lines costing upwards of $12,000 and the determination to spend $50,000 on repairs to the plant, principally all of which will go under ground will make the Trotter plant, which is already famous as one of the best plants in the region, one of the finest in the country.

The Trotter plant is now handling all the vast amount of water draining from Adelaide, much from Davidson and the river leaks, a part of the Leisenring besides its own vast area. To handle this amount of water it was necessary to install 18 large pumps which go night and day.

General improvements will be made at necessary points with the present outlay but the large bulk of the expenditure will be for compressed air machines for haulage and the extension of air lines.

A feature of the Trotter mines that is not generally known that for safety alone an immense amount of money has been expended. One item alone is the construction of an immense concrete door with sluice gates. Through this gate the waters from the Yough river, should it break through the river bottom which connects Davidson with Trotter and other mines the gate can be lowered to regulate the lift of water possible with the pumps. In case the water is of too strong volume the great concrete gate can be lowered and the inrush stopped immediately. So far as known this mechanical contrivance is the only one in operation in the Connellsville region.

FEAR PET COONS HAVE MET UNTIMELY DEATH.

Three Mysteriously Disappeared and May Play Title Role in Coon Dinner.

Three missing coons are being anxiously searched for over town this morning. One belongs to James McGinn of the Yough House; another to Michael Roland, of the Haas Hotel, and the third to Burgess A. D. Solisson. All of them were educated coons and could do many tricks. They were not intended for the table, at least, not for a time yet, but there is a growing belief that some one had a different view of the coon question and purloined them form their coops for a feast of coon and sweet potatoes.

First it was thought that some one took them away for a joke and that they would be returned, but hope of this is fast fading and the coons, it is feared will never return to this earth again.

KILLED IN CHICAGO.

Railroad Man Known Here Meets Death in West.

Word was received here today of the death of Edward Sheppard at Chicago, Ill. He was employed as a railroader in that city and was injured while at work last Friday, death occurring yesterday. He was a son of Walter Sheppard of Mt. Pleasant and a nephew of Cyrus Echard of Connellsville, having married Mr. Echard's sister, Miss Mary Echard. He is survived by a wife and three children.

Mrs. Sheppard left this section many years ago, and his first wife died about three years ago. His second wife and three children survive him. No arrangements have been made for the funeral, but it is likely that the body will be interred in Chicago.

Justice Dismisses Case.

UNIONTOWN, Nov. 13.—Julius Crosby of Helen works was discharged from Justice Boyle's court this morning because George Wymer did not present sufficient evidence to sustain his charge of cruelty to animals against the defendant. The justice was not convinced that Crosby abused Wymer's horse.

Atmosphere Cleared.

Since the forest fires have been quenched the atmosphere has been cleared of smoke.

WESTMORELAND COKE OVENS TO BE FIRED.

General Resumption to Go into Effect in Adjoining County at Once.

GREENSBURG, Nov. 13.—The Mt. Pleasant Coal Company, formed to develop the coal underlying the St. Xavier's academy property at Beatty station just as the business depression came on, has announced that operations will begin Monday morning, when 125 coke ovens will be fired. One hundred and twenty-five men will be put to work and orders are on hand to insure three years' work.

The Fort Palmer Coal & Coke Company started its new plant at Fort Palmer, six miles from Ligonier, this week.

The H. C. Frick Coke Company has fired 300 of the 900 ovens at the Standard works No. 2 at Mt. Pleasant.

From other parts of Westmoreland county comes the news that sufficient coal and coke orders have been secured to guarantee a straight run through the winter of almost every coke oven in the county, if water could be secured with which to operate them.

The Brown-Ketcham iron works, a construction concern, received large orders recently and a full force of men is now employed, with prospects of a two years' run.

CALEB F. McCORMICK DIES AT HIS HOME.

Well Known Fayette Countian Taken Ill at Table Expires Suddenly Yesterday.

UNIONTOWN, Nov. 13.—Caleb F. McCormick, widely known in Fayette county, died suddenly yesterday afternoon at his home on South Mt. Vernon avenue. He was taken suddenly ill while eating supper and was removed to his room where he died three hours later.

Caleb F. McCormick, who was the son of William and Phoebe McCormick, was born in Menallen township in 1844. He came to Uniontown when a young man and had resided here for 40 years. In 1873 he married Miss Margaret Carter to which union six children were born. About 1870 he entered the meat business with which he had been connected until about 10 years ago. He was the proprietor of a meat market at Peter and Pittsburg streets where he was later succeeded by his eldest son, Charles K. McCormick. After that he became interested in real estate and made several large coal deals before his retirement, about eight years ago. He was an active member of the Great Bethel Baptist church and had always taken a great interest in church work.

His widow, Mrs. Margaret McCormick, four sons, Charles K., Albert, James, Harry Carter, and Arthur Finley, all of Uniontown; and two daughters, Mrs. Violet Leona Cratty of Uniontown, and Miss Blanche Madeline, at home, survive. He is also survived by three brothers, Charles J. and William of Uniontown, and Ewing of Hastings, Neb., and five sisters, Mrs. Hannah Moore, and Mrs. Anna Woodward of Uniontown; Mrs. Margaret Moore, Mrs. McCombs and Mrs. Kuhns of New Salem. No arrangements have been made for the funeral.

TO PROTECT POLES IN CONNELLSVILLE.

Bell Telephone Company Placing Strips of Galvanized Iron on Property Here.

The Bell Telephone Company is taking precautions in protecting its telephone poles in the center of the town. In order to protect them from horses gnawing at them and also from the iron hubs of wagons, strips of galvanized iron were placed as high as the horses can reach and iron plates were placed about the corner poles where the wagons usually strike them in making the turn.

All the poles are being painted to a distance of about 12 feet. The painting of the poles will be general throughout the town but the strips of galvanized iron and the iron shields will be placed only on those poles in the center of the town.

SUSPICIONS OF DAY.

This is Friday, the Thirteenth and Said to Be Unlucky.

Friday, the Thirteenth. This discovery was made in the police headquarters today when day No. 12 was about to be torn off. Chief Hotter objected, saying that it was better to cover Friday the Thirteenth up for a while.

Several superstitious people have been watching about today to see that no black cat crosses their path, for the unwritten law says that means trouble of a serious nature.

However, no serious troubles have been recorded today, but in the language of the superstitious, the day is yet young.

SHOW CAUSE WHY YOUGH SHOULD BE SLACKWATERED.

Enthusiastic Meeting of Boomers Held at Chamber of Commerce.

STRONG EVIDENCE SUBMITTED.

Several Men Prominent in Business World Add Support to Movement by Presence and Speeches—Are Ready for Government Engineers.

Before a goodly audience of enthusiastic river improvement boomers the regular monthly meeting of the Chamber of Commerce was held last night at which time some of the evidence to be submitted before the Board of Government Engineers was presented. This included an exhaustive report on the mineral wealth of the Youghiogheny valley, prepared by S. M. James, which was read and explained by its author. John Duggan spoke on freight rates and also had a word or two to say about property values; H. A. Dante, general manager of the Aluminum Company of Pennsylvania, declared emphatically that coke does not deteriorate when shipped by water; while J. B. Hogg, President Wallace and others had interesting information to convey.

The evidence which has been prepared will be submitted with a view of refuting the statements contained in the recent adverse report made by the engineers. Each question has been taken up in detail and will be answered by experts. It was impossible for Congressman Cooper to attend the meeting last night but he promises to be on hand at the hearing next Tuesday and will bring Congressman Dalzell of Pittsburg with him.

The report of Mr. James was by far the most interesting of all, unfolding, as it did, the vast wealth of the Youghiogheny valley in addition to its coal deposits. The report is too lengthy to be presented here in full.

After explaining the uses of minerals, Mr. James delivered the summary below and closed with the following general explanation of the geological formation of the country included in the Youghiogheny river basin:

The 18,339 acres is made up from all of some and parts of other 60 different original warrant survey tracts.

The total thickness of the ten different strata is 354 feet.

The total tonnage is 13,111,225,804.

The total number of car loads is 468,040,860.

The number of years required to remove the different strata at the rate of a thousand car loads per day is as follows:

Mahoning sand stone, 26 years; plastic fire clay, 20 years; Piedmont sand stone, 24 years; flint fire clay, 13 years; fire stone, 65 years; coral conglomerate rock, 201 years; red shale, 100 years; limestone, 227 years; blue stone, 311 years; Devonian sand rock, 158 years; total, 1,086 years.

We have heard the blasting done the last twenty-four years at Blue Stone quarry near Connellsville, where 110 feet face of rock was worked into paving blocks but is now made into ballast and screenings for the B. & O. railroad company exclusively. The cavity thus mined during the 24 years is scarcely two acres. The stone will weigh 180 pounds per cubic foot. There are 43,560 cubic feet in each acre, one foot in thickness. A two acres cavity with a face of 110 feet will yield a tonnage of $62,510 or 28,750 thirty ton car loads. This would require four car loads per day or 1,250 per year for its removal in the twenty-three years. The capacity of the quarry is fifteen carloads daily but it is only worked under B. & O. contracts. It uses all the product and controls the output.

At a royalty of five cents per ton to the owner of the land this quarry will have yielded $43,125. The capacity of the quarry will admit of nearly four times the above amount being mined and the royalty might well be ten or twelve cents per ton instead of five cents.

Write these figures down and ponder over them. The possibility of the realization of some of these handsome profits is in sight of the coke center.

The Greater Pittsburg contractors are buying dimension stone below Pittsburg and hauling it up stream. The ten stratas of material named in this paper lie under the rivers at Pittsburg and are not accessible.

The Alleghany Mountain chain is made up of lesser mountains or ridges upon either of its sides. While the force of the explosion which lifted Mother Earth formed this mountain vent, to this center force was added on either side which broke the sides into long parallel subranges or minature mountains. Some of these ridge exposures on the sides of the great mountain are uniform and parallel, for many miles in length; for instance, the first one is in full view of Connellsville and the second one ten miles eastward, climbing up the greater mountain at the Somerset county line.

These ridges extend many miles on either side of the Yough river. But directly east of the latter ridge the upheaval was gradual, the surface unbroken for considerable distance and from a point at Continepe at the eastern base of the second ridge the less broken surface rises in all directions, forming a basin of immense magnitude, but for an immense crack in the ridge

(Continued on Sixth Page.)

In Social Circles.

Mission Work Discussed.

Between fifty and sixty persons were present last evening at a joint meeting of the Woman's Foreign and Home Missionary Society and Ladies' Aid Society of the Trinity Evangelical Lutheran church held at the home of Mrs. F. A. Leibiger, on West Peach street. The meeting was one of great interest and was preparatory to the Thanksgiving services to be held on Friday following Thanksgiving.

The meeting opened with devotional services after which the subject for study, "Encouraging signs of the times in mission fields," was taken up and ably discussed. Several papers were read by members of the society, dealing principally with mission work in the different fields, customs and ways, etc. Three new members, Mrs. Drumm, Miss Drebert and Miss Sadler were received into the society.

At the close of the program a most delightful social hour was held and refreshments were served by a committee composed of Mrs. F. A. Leibiger, Mrs. H. C. Hoffman, Mrs. Thomas Miller and Mrs. John Reck. The next meeting will be held on the second Thursday in December at the home of Mrs. W. W. Glotfelty on East Main street.

Thank Offering Services.

The annual praise and thank offering services of the Home Missionary Society of the First Presbyterian church held last evening in the church was one of the most delightful gatherings held by the society for some time. The attendance was large and the exercises were greatly enjoyed.

The meeting opened with short devotional exercises followed by a selection by J. L. Rodrigue's double quartette. A vocal solo by Mrs. Herbert Knox was well rendered and well received. The feature of the evening was an address by Rev. Miller of Dunbar. Rev. Miller spoke principally of the home missionary work and of the importance of the work in one's own church.

At the close of the program refreshments were served and a most delightful social hour was held. The guests present were Mrs. Miller, wife of Rev. Miller, Misses Ella and June Byers, and Miss Margaret Watt of Dunbar. The Foreign Society will observe its annual Thank offering services in the church on Thanksgiving night.

Early Morning Serenade.

About twenty-five West Penn motormen and conductors joined in serenading L. R. McFadden, the popular West Penn motorman, who was married in Cumberland Wednesday morning to Miss Veronica Hampton of Trotter, and a pupil nurse at the Cottage State hospital.

The couple who reside on Murphy avenue, Uniontown, were awakened about 1.30 A. M. by the noise of a circular saw, tin cans, cow bells and were not long in getting wise when they discovered the West Penn employes descending fro ma special car which was standing in front of the house. Hurriedly dressing the couple made their appearance at the front door where the headlight of the car had been set to put on the finishing touches on the scene. The young couple were informed of the fact that they were to be given a trip to Brownsville. They boarded the car but after a consultation of the serenaders it was decided to postpone the trip.

Rev. Seaman Surprised.

The residence of Rev. A. R. Seaman at South Connellsville was the scene of a large and enjoyable gathering last evening when a surprise party was tendered Rev. Seaman by a number of young people of South Connellsville. The affair was very cleverly arranged and was one of the greatest surprises in Rev. Seaman's life. On entering his home shortly after 7 o'clock the lights were turned on and he was surrounded by his friends who had taken possession of his home.

After recovering from his great surprise Rev. Seaman entered into the amusements of the evening and proved himself to be a very delightful host. After exchanging greetings he left the room and later appeared dressed in an outfit representing Santa Clause. A short musical and literary program was rendered after which refreshments were served.

Doctors Meet.

The Yough Medico Social Club met last evening at the home of Dr. Hugh Baker on South Pittsburg street. The meeting was the regular monthly one of the club and all members were present with the exception of Dr. W. W. Warne of Dunbar and Dr. E. B. Edie. Dr. H. C. Hoffman was a guest of the club.

Dr. Baker read an interesting paper on "Psychiatrys and Psychiatrys of the Augustine Era." Following a general discussion of the subject a prettily arranged four course luncheon was served. The next meeting will be held on the first Thursday in December at the home of Dr. L. P. McCormick on North Pittsburg street.

Will Inspect Circle.

Largely attended was the regular meeting of the Ladies Circle No. 199 to the G. A. R. held yesterday afternoon in Odd Fellows hall. The regular routine business was transacted and arrangements made for a special meeting to be held next Friday afternoon at which time Miss Nahors, inspector of the Uniontown Circle, will inspect the Circle here. A large attendance is desired.

Ladies Aid Meeting.

The Ladies' Aid Society of the Methodist Episcopal church met yesterday afternoon at the home of Mrs. David Long on Seventh street, New Haven, with many members present. During the business meeting a committee composed of Mrs. J. L. Evans, Mrs. David Long, Mrs. James Hicks, and Mrs. Adeline Anderson was appointed to look after the repairs needed to be made on the church parsonage. Refreshments were served. The next meeting will be held on December 10.

Entertained at Cards.

Mrs. W. L. Wright and Mrs. J. D. Porter were the prize winners yesterday afternoon at an informal card party given by Mrs. S. F. Hood at her home on South Arch street. The hours were from 2.30 until 5 o'clock. Six tables were in use for "500" the game played. Refreshments were served at the close of the games.

Hostess at Cards.

Miss Katherine Campbell was hostess last evening at cards at her home on Crawford avenue the occasion being the regular meeting of the Evlewet Club. Twelve members were present and played "500" until a late hour when refreshments were served.

Children's Party.

In honor of the eighth birthday of her little son, William, Mrs. S. J. Harry was hostess last evening at a very enjoyable children's party. Various games were indulged in until after 9 o'clock when a bounteous repast was served.

Bush-Bachman.

Announcement has been made of the marriage of Charles Campbell Bush of Pittsburg, and Miss Lulu Bachman of Fairchance which was solemnized in Cumberland Tuesday.

Protected Legion Meeting.

Exchange at Gettys.

The ladies of the Christian church will hold an exchange tomorrow morning in Getty's store on South Pittsburg street.

Into the Primitive

Is the title of next serial story which will begin Saturday. Don't miss the opening chapters.

FALLS THROUGH BRIDGE; MAY DIE.

H. L. Keiser of York, Pa., Meets With Serious Injury on Yough Bridge This Afternoon.

While working on the Yough bridge this afternoon H. L. Keiser of York, Pa., an employe of the York Bridge Company, fell through the structural work to the B. & O. tracks. He was probably fatally injured, sustaining a broken jaw, broken arm, fractured skull and other injuries.

Keiser was taken to City Hall where Drs. T. B. Echard and H. F. Atkinson dressed his injuries. He was then removed to the hospital. Keiser dropped a distance of 30 feet or more.

RETIRING OFFICIAL IS GIVEN DINNER.

West Penn Attaches From Many Places Gather at Farewell Banquet to George R. Folds.

Chief Engineer J. L. Fritsch of the West Penn made a hit at the dinner given retiring General Manager George R. Folds at the Arlington hotel last night when he said that Mr. Folds had spiritual reasons from leaving the railway service to enter the asbestos business. Let it be known that at such ceremonies where the genial West Penn family is represented there are present no respectors of persons. For wit, satire and humor these gatherings rival, in a sense, the famous Gridiron Club.

There were 82 guests present, one official for each week in the year Mr. Folds served as General Manager of the company. They came from Connellsville, Greensburg, Latrobe, Mt. Pleasant, Uniontown, Brownsville, Monongahela City and Charleroi to honor their retiring chief and it was a touching scene when Chief Clerk H. L. Mitchell delivered the presentation speech and Mr. Folds was given a handsome cane and umbrella, the gift of his subordinate officials. Mr. Folds responded in his usual happy vein. There were other speeches, an eight course repast, and then the party made a break for home.

Besides the aforesaid Mr. Fritsch, who made the hit of the evening, short talks were made by W. E. Moore, L. H. Conklin, J. W. Brown, T. B. Donnelly, H. G. Glass, F. W. Scheidenheim, C. W. Scheck, J. S. Jenks and G. W. Wells. F. P. Marr, the genial right-of-way man, started to speak but had a hard time reaching for the finish. The audience told Marr he looked like George B. Jeffries and that made him strike hard to capture the oratorical honors of the evening. He succeeded.

Those present from out of town were W. E. Moore, representing the Kuhn interests, and General Auditor C. W. Scheck of Pittsburg; Superintendent M. A. Coffey of the P. McK. & C., Chief Lineman William Smith and Solicitor O. C. Hartley of Greensburg; Superintendent H. D. Hershey and Solicitor T. N. Shaw of Latrobe; Superintendent M. L. Nichol of Monongahela City; Superintendent D. H. Johnson of Charleroi; Superintendent James A. Gafney of Brownsville; Superintendents C. E. Fife and W. H. Shaw of Uniontown; David Stewart of Uniontown, representing the J. S. & W. S. Kuhn Company; Superintendent W. F. Long of Mt. Pleasant; Solicitor F. C. Ekels of Uniontown, Chief Lineman R. E. Glass of Monongahela City, and L. O. Vesser of Brownsville, formerly with the West Penn.

INDIANS AT PITTSBURG.

Carlisle Team to Play University Football Team Saturday.

Lovers of clean, fast football in Pittsburg and surrounding towns are assured a great treat the coming Saturday, November 14, when the famous Carlisle Indians, whose work has been the sensation of the footbal world for a number of years, will line up against the great University of Pittsburg, formerly W. U. P., team at Exposition Park, Northside, Pittsburg.

Under the new style of play, the Indian team is considered the speediest aggregation of players that ever donned the moleskin and this year they are even stronger than ever as shown by their 6-0 game with the University of Pennsylvania and other contests with the best Eastern teams, in manipulating the forward pass and other famous plays they have no superiors.

The University of Pittsburg was only able to secure the Indians as an attraction on the promise of an enormous guarantee and it is expected that the largest crowd that ever witnessed a football game in Western Pennsylvania will be on hand to watch the teams battle.

Election Returns.

After the election returns are all in and the next President named the country will settle down to a period of prosperity such as only this country can experience. It will be the time of all times to build up a surplus. Save now and keep saving. Four per cent. interest paid at The Citizens National Bank, Pittsburg street, Connellsville, Pa.

PROCTER & GAMBLE P&G NAPHTHA SOAP

Not Necessary to Boil Clothes

Some women think it is; but that does not alter the facts.

Nine-tenths of the discomfort and half the hard work of wash-day is due to the idea which so many women have, that it is necessary to boil clothes.

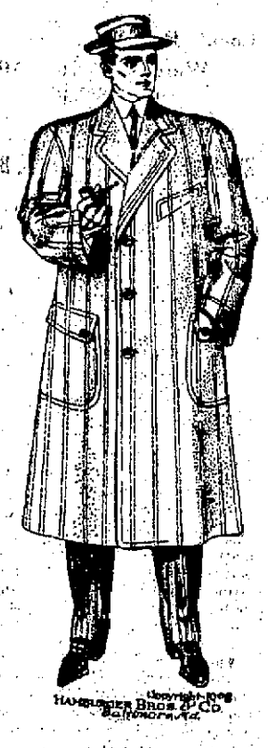
It is, if you use ordinary laundry soap. But *not*, if you use P. & G. Naphtha Soap.

With P. & G. Naphtha Soap and cold, or lukewarm water, you can do more work and better work, than with ordinary laundry soap and boiling water. Do it *quicker*. Do it *easier*.

P. & G. Naphtha Soap is for sale in almost every grocery in this city.

The price is 5 cents a cake.

Have You Seen the Overcoats We're Selling at $15 to $20?



This illustration shows one of the attractive models. The others are just as smart looking. While the style of each model is exceptional, the splendid quality of the materials and the fine hand-tailoring are particularly noteworthy, and sure to convince you of their great superiority over all other $20.00 values.

Why pay a custom tailor $40.00 for an overcoat when you can get one here at $20.00 which is every whit as good?

The fabrics consist of bright striped Cheviot and plain brown, blue and Oxford.

BOYS' SUITS AND OVERCOATS $4.50 TO $12

Garments of selected fabrics, tailored to give long service in a great assortment of nobby styles.

Wertheimer Bros., 124 N. Pittsburg Street, Connellsville.

JURORS DISCHARGED.

Unsettled Cases to Go to Foot of Trial List.

UNIONTOWN, Nov. 13.—After binding instructions had been issued by the court in favor of the defendants in the cases of Lena Leonard, administratrix, against John E. Leonard; and Frank E. Springer against Jennie M. Smith and L. E. Smith, the jurors for this week were discharged yesterday afternoon save those on the Coffman case. In the first named cases the interested parties come from the neighborhood of Brownsville.

Among the unsettled cases which go to the foot of the trial list are:

George B. Irvin against Fairchance School District.

William A. Stone against Retta E. Carter.

Nick Bell and others against Dunbar Furnace Company.

Victoria Shaffer against John Miller.

B. O'Connor against William A. Hazlett.

In the case of Victoria Shaffer against John Miller, the court granted leave for the defendants to file an amended affidavit of defense. This case is a dispute over property.

SUCCESS MEANS WORK.

The Path To Independence Is Not Strewn With Roses.

The young man who is ambitious to succeed in life must be willing to practice self-denial. He cannot loiter by the wayside among the flowers. He must be up and doing. He must work hard and he must save a part of his earnings. But it is worth while. There is nothing in life sweeter than deserved success, nothing more satisfying than the achievement of an honorable competence. And in this country it is within the reach of every young man. The first step is a savings account, and that may be opened with the First National Bank of Connellsville, where four per cent. interest is paid and absolute safety assured, with one dollar or more.

Our Suit Section will be Thronged With Eager Buyers!

This sale is planned to re-adjust our suit stock. Despite the unfavorable conditions which have prevailed in this vicinity we have surpassed our greatest suit selling records since the season opened. This heavy selling has left us with an accumulation of broken styles and size assortments which we wish to immediately dispose of. Such is the cause which brings you

This Suit Buying Opportunity Without Parallel.

There are no better made or more fashionable suits than these figuring in this sale. We have sold numbers of these at prices ranging from $25 00 to $30 00 and at these prices they were the biggest values the town could show.

As Now Reduced To $18.75 They Are Marvellous Bargains.

All styles in the assortment from severe manishly tailored models to elaborately trimmed effects. Colors include all the most favored shades. And every model is splendidly man-tailored and beautifully finished.

You Have Never Seen the Equal of The Values!

The sale is for four days only. Come early. Varieties will quickly dwindle. Greatest values will go first. She buys best who buys quickest

SIMPLE RECIPE FILLED OFTEN.

Local Druggists Say They Were Kept Busy All Last Week.

RELIEVES ALL THE LAME BACKS

No Sufferer of Kidney or Bladder Troubles or Rheumatism Should Leave It Untried—Is Easily Mixed at Home and All the Ingredients Are Harmless

That the readers of this paper appreciate advice when given in good faith is plainly demonstrated by the fact that one well known local pharmacy supplied the ingredients for the vegetable prescription many times within the past two weeks The announcement of this simple, harmless mixture has certainly accomplished much in reducing the great many cases of kidney complaint and rheumatism there relieving pain and misery especially among the older population, who are always suffering more or less with bladder and urinary troubles backache and particularly rheumatism.

Another well known druggist asks us to continue the announcement of the prescription It is doing so much real good here, he continues that it would be a crime not to do so It can not be repeated too often and justifies as many cases of remarkable cures wrought

The following is the prescription, of simple ingredients making a harmless inexpensive compound which any person can prepare by shaking well in a bottle Fluid Extract Dandelion one half ounce Compound Kargon one ounce Compound Syrup Sarsaparilla three ounces Any first class drug store will sell this small amount or each ingredient and the dose for adults is one teaspoonful to be taken after each meal and again at bedtime There is enough here to last for one week If taken according to directions Good results will be apparent from the first few doses

A MIGHTY THRONG OF Clean Headed Americans

HERE IS OUR OFFER

AS FREE FROM DECEIT AS THE HEAD OF A PARISIAN SAGE USER IS FROM DANDRUFF

If Parisian Sage, when used according to directions, does not cure Dandruff, stop Falling Hair or Itching of the Scalp in two weeks, your druggist will give you your money back.

Is that Proof Enough?

Parisian Sage is guaranteed by every druggist who sells it to give satisfaction or money back There may be other hair restorers that will do the same offer, but we have never heard of one

Not only do we make the offer as printed above, but we say to every man and woman that Parisian Sage is the best hair dressing ever compounded We claim that it will turn harsh, unattractive hair into bright, lustrous and luxuriant hair in a few days We claim that it will grow hair long and plentiful. We don't "prove it" by somebody a thousand miles away, but we say

Prove it Yourself

and we mean what we say—prove it at our expense Get a bottle to day If it doesn't do all we claim for it your druggist will give you your money back That's the best proof the real proof—that's the kind of proof that is easy to prove

Parisian Sage is not sticky or greasy, it is the most pleasant and invigorating hair tonic in the world 50 cents a large bottle at all druggists (the girl with the Auburn hair on outside of every package), or direct, charges prepaid, from American makers,

ADVERTISING.
THE DAILY COURIER has double the circulation of any other daily newspaper in Fayette county or the Connellsville coke region and it is better distributed for the general advertiser. It is the only paper that presents each week sworn statements of circulation.
THE WEEKLY COURIER is the recognized organ of the Connellsville coke trade. It has especial value as an industrial journal and an advertising medium for such interests.

FRIDAY EVENING, NOV. 13, 1908.

THE YOUGH IMPROVEMENT A LIVE ISSUE.

The Yough river improvement meeting at the rooms of the Chamber of Commerce last night developed the fact that the committee charged with gathering facts to support the demand for the canalization of the river had not been idle. The Government hearing next Tuesday will have presented to it a liberal array of figures that will furnish food for thought and plenty of excellent reasons why the last report on this proposition should be radically revised and its conclusions completely reversed.

The adverse report of Captain Adams was evidently based upon a very limited knowledge of the situation. It dwelt especially on: 1. An alleged lack of interest in the project, especially among the coke manufacturers, whose product seemed to him to be the chief output of the Youghiogheny valley, and which, he reported, "deteriorated" in water transportation; and, 2. The limited area for manufacturing sites which would develop business for the canalized river.

It was shown at the meeting last night that aside from the coal measures remaining to be worked out, there existed in the Youghiogheny valley enough mineral wealth to keep the shipping routes busy for 1,300 years at the rate of 1,000 cars per day; and that coke could not chemically "deteriorate" in shipment by water, while in the matter of handling it had the advantage of unshaken movement in transit. It was promised that data would be ready from actual surveys to show that the land available for manufacturing sites along the river is many times greater than the number of acres reported.

It was also shown that waterways materially reduce the cost of transportation, and that they are essential to the development of low-grade mineral wealth such as ore, stone and sand. The existence of a waterway from Connellsville to Pittsburg, perhaps even the promise of it, will doubtless give us the Pittsburg freight rate which we have long been fighting for without success and the lack of which has seriously militated against Connellsville's industrial growth.

That part of Engineer James' report dealing with the water supply and the geological formation above Connellsville discovers the interesting fact that a body of water 20 miles square and 400 feet deep can be impounded above Confluence by merely walling off a natural crevice in the mountains. The problem of a sufficient water supply, thought to be so difficult, is here capable of simple solution.

While the conservation of the water supply is not a matter which the Government will take up just now, the present question being the building of locks and dams in the river, the former question is indissolubly linked with the latter, and must within a very short time receive the active attention of the State and National Governments. The Youghiogheny river is extremely low this year, but this has been an unusual season, and it is stated on the authority of an old citizen that the river was even lower in 1854. The other rivers are in the same plight. Down the Ohio as far as Wheeling the river is so low on the shallows that people can walk across the stepping stones, and automobiles and other vehicles cross without discomfort. Navigation on the Ohio is confined to certain seasons of the year and one of the improvements now being urged by Pittsburg and Ohio river interests is the deepening of the channel to 9 feet from Pittsburg to Cairo. The low stage of water in the Youghiogheny just at this time by no means condemns the river for canalization.

The destruction of the forestry has brought about two serious conditions which the authorities of State and Nation are now planning to abate, that is to say: 1. The destructive floods, which are growing in volume and frequency; and, 2. The scant water supplies during the summer season, which are becoming a menace to public health.

The only practical remedy offered for these is the damming of the rivers and the impounding of the waters, serving the double purpose of preventing floods and affording an ample water supply during the dry seasons. With so magnificent a location for such a tremendous body of impounded water just above us there will be no trouble about sufficient water to fill the canalized Youghiogheny from Connellsville to McKeesport.

In this busy world of ours, things may come to him who waits, but he may die of old age while he is waiting. The man who hustles is the man who gets there promptly, and it is so with the town. Such improvements as we have had under discussion are coming, and the communities which hustle for them will be first served.

Let's all hustle on Tuesday.

THE ROAD TO DESTRUCTION.

The American Federation of Labor is on the high road to destruction under the leadership of Samuel Gompers, whose political deals have already divided the membership seriously and must if persisted in divide it more until the house-divided against itself will fall.

In spite of the evident objections to President Gompers' course in dragging, or attempting to drag, the organization into politics to further his own selfish end, that domineering official had the impudence to have read at the Denver meeting yesterday a telegram from William Jennings Bryan thanking the Organization for what it had done for him in the recent campaign.

Whether President Gompers is retained or retired from office, or whether his political deals are condemned or endorsed, the effect upon the organization will be disrupting. A great majority of the members of the Federation of Labor are earnest partisans, sincere in the belief that their particular party can be trusted to do more for the cause of labor than the other, and distrustful of any representations to the contrary however specious and confident; and all attempts to use their labor union obligations as a club to make them vote against their political convictions must only recoil upon the organization with shattering force.

A POSITIVE MINE OFFICIAL.

The Chief Mine Inspector of Pennsylvania is a positive man. This peculiarity is plainly apparent in his annual report, portions of which have prematurely found their way into the columns of the more favored press.

In spite of the verdicts exonerating the managers of various accident-stricken mines of carelessness in discharge of their duties, Chief Roderick says many of them have been guilty, and further that certificates have been forged and sold to foreigners unable to speak, read or write English and have by them been passed from hand-to-hand among their countrymen, in barter.

These are serious charges, and if Chief Roderick has evidence of them it is his duty to cause prosecutions to be entered against the guilty parties. On the other hand, if he has no evidence that would be convincing to a jury he is inserting in his report something which has no business to be there. An official report should always be a statement of ascertained facts, not a bundle of gossip.

The Oregon Republicans doubt the propriety of a primary election law which results in the nomination of a Democrat as their candidate for United States Senator. We should say that the doubt is reasonable. The Wild West's new primary contrivances are woolly, and some of the Effete East's ridiculous, in their application. They make a plain, straightforward, old-fashioned partisan think of going back to the primitive primary.

It is estimated that baseball costs the country $17,000,000 per year, and yet some people kick on the cost of the Panama Canal.

The Connellsville hospital lives within its means.

It seems to be more trouble to dispose of the Dorr relief fund than it was to raise it, notwithstanding there are a number of Barkises who are willin' to accept it. The Carnegie Free Library of Connellsville could use it to excellent advantage.

Turkey will not be the only Connellsville attraction for Thanksgiving.

Virginia's Hot Springs is more than a health resort just now. Virginia was once the Mother Presidents, but just now she is the Mother of Cabinet Officers.

The practical side of Christian Science is being taken up by Bishop Fallows of the Episcopal Church. The practical side of this "science" consists merely in the cultivation of confidence and cheerfulness.

Lawyers are expensive luxuries, and Harry Thaw is an alleged bankrupt, yet he hires a new lawyer every month or so.

That $29,000,000 fine still pursues the Standard Octopus.

Grass widows in bunches write to Connellsville to inquire if their missing affinities are here. They probably reason to themselves that their husbands want to get as close to the Center of Attraction as possible.

J. Pluvius proved to be the best fire-fighter, and he didn't charge the county a cent for his work, either.

The second decision in favor of the Standard Oil Company in the matter of the $29,000,000 fine is only a repetition of the first by the same court. The court could not be expected to reverse itself. The courts do this sometimes, but rarely.

There is a suspicion that some people were on the firing line for profit during the late dry spell.

Zeppelin's airship will try what Andree's balloon failed, that is to say for the North Pole, and Civilization writes in the hope that the airship will be successful. When it has been discovered that the North Pole is nothing but an icebound snow-covered waste perhaps there will be less lives lost in attempts to discover it.

The wounds of a faithful friend are better than the kisses of a deceitful enemy, but sometimes the kisses of a friend are preferable to the vitriolic vituperation of an enemy.

The influx of immigration to the coke region has already begun. It was very prompt in starting.

People who have all kinds of time of their own seldom realize that there are other people who have little time to spare.

The Yough has gained an inch, but the Yough improvement cause has gained miles of earnest support.

The Ohio factional fight will be fought out again in the election of a Senator. It will be another "Jeff and Folker struggle, but the issue is not much in doubt. Folaker is doing the Ajax act, but from present appearances the lightning will get him.

President Roosevelt says his Labor dinner is a Private Function and that he will invite nobody but his friends. He does not have to invite anybody else, and those bidden do not have to come.

Another Unlucky Day; Friday, the 13th.

The man who does his duty as he sees it must depend upon the reward of an approving conscience. He will get plenty of criticism from others.

J. Frost is a caller today.

"Shad" Murphy ran pretty well while he was here, but he seems to be running better in Oklahoma.

Socialism is still a dream.

OF SCHOOL AGE.

Uniontown Standard.

The Connellsville Daily Courier has just celebrated its 6th birthday. It's old enough to go to school and the News Standard is the only paper in the county old enough to be its teacher. But we presume it won't attend regularly, probably play "hook" and like other youngsters get the idea that it is smarter and knows more than its teacher, and we really don't care whether it comes to school or not. However we congratulate it because it has reached its 6th birthday and because the high opinion which its family entertains of its ability and usefulness is justified by the record of its first six years.

IT HAS BEEN VERY SMOKY.

Connellsville News.

The esteemed Daily Courier is congratulating itself upon reaching its sixth birthday is somewhat pessimistic in its anticipation of what other papers will say about it. The brother editor should clear the smoke off his glasses. The Daily News earlier in the year passed its tenth anniversary and although it threw no bouquets and asked for none, it, for one, desires to extend congratulations to its neighbor upon the passing of its sixth milestone and its best wishes for a continuance in the future of the success and prosperity which it seems to have enjoyed in the past.

HE SWEARS TO IT.

Uniontown Standard.

Press Reay of Monongalia county, West Virginia, who is known to many Fayette county people, was a Democratic candidate for the Legislature at the late election. He was defeated.

In filing his statements of campaign expenses, he swears that his total expenses amounted to $11.50 of which $6.50 was for cards and $5 for "grub." Following this he adds, "And I do further solemnly swear that it would have been better for Monongalia county if I had been elected."

ONE OF THE BEST IN THE STATE.

Canonsburg Notes.

The Connellsville Daily Courier is six years old and one of the very best dailies in the State outside the cities

WEATHER FORECAST.

Western Pennsylvania—Fair Friday and Saturday; light to fresh west winds.

Your Opinion.

We want your opinion of the goods we have here. We've selected these goods and garments because we thought they would please you. We have marked them at prices that quality and style considered mean a saving to you. We do, several reasons are able to do business on a pretty close margin but all our efforts as far as you are concerned, will be useless unless you will come and see the goods and learn the prices. Below we tell you about some goods and garments that we ask you especially to come and see. Not much about the goods here except the prices. Let you be the judge as to whether they are worth buying at the prices quoted.

CHILDREN'S WOOL HOSE.
Ribbed, double soles, absolutely fast black and 25 cents the pair.

BLACK BROADCLOTH.
50 inches wide. You know how popular Broadcloth is this season. This is priced at $1.00 the yard.

MUNSING UNDERWEAR.
Particularly this week. Women's Vests and Drawers at 50 cents the the garment. Fleeced Underwear that fits well and wears well. Tell us when you have seen this. If you have ever seen a garment any ways near as good for 50 cents the garment.

WOOL BLANKETS.
When this store says ALL WOOL it means every thread. These we tell you about here are good size, good weight and good wool and priced at $5.00.

BLACK GOODS
At $1.00 the yard. A showing of fabrics that it will be worth your while to see.

FANCY SILKS.
Also at $1.00 the yard. Colors that will please you and colors only that are good this season.

SILK PETTICOATS
At $5.00. Black and colors. Full and wide and not skimped in any way.

CONNELLSVILLE, PA.

NEWS OF A DAY IN SCOTTDALE.

Several Lawsuits From Scottdale Heard in Court at Greensburg.

BRASS STEALING MATTER UP.

A Gun Toter Had to Pay the Costs of Indiscretion—Afternoon Fire Broke the Thursday Monotony—Other News Notes of the Mill Town.

SCOTTDALE, Nov. 13.—Mike Simon and Myer Davis, two junk dealers from Mt. Pleasant, were on trial yesterday under a charge of receiving stolen goods. It is alleged that they took about 300 pounds of brass that was stolen from the Crescent Manufacturing Company of Scottdale, which William Maley and others are accused of taking. Constable T. J. Gillespie and Assistant Fire Chief John Mullhorn arrested the two junk dealers at midnight as they were going away from the Crescent shops in a buggy, headed for Mt. Pleasant. Maley entered a plea of stealing the brass.

New Gold Coins In.

The new gold coins being put out by the Government have reached Scottdale, the First National Bank receiving a number of them yesterday. The coins do not seem to take well here to the eyes of the people, who seem to prefer the appearance of the old-fashioned ones. The new coins really look old-fashioned, showing an eagle apparently clad in trousers and walking over the coin. They also lack the high rim, or whatever it is called, around the edge, and look like the pictures of the old Egyptian money. "In God We Trust" is put on one side of them. The way it is put on looks like an afterthought.

Are Away Surveying.

Civil Engineer John L. Hengstellar and H. B. Kandle left yesterday for the vicinity of Chalkstown to survey some farm lines for property owners in that section and expect to be gone all week.

Institute Date Announced.

The East Huntingdon township schools will hold an all day institute on Saturday, December 5, at the North Scottdale school building. The schools will be session from 9 to 12 o'clock and in the afternoon quite an interesting program will be given over to discussion.

W. B. Thomas' Will.

The will of William B. Thomas, who died here recently, has been probated in Greensburg yesterday. It was dated September 8, 1903, and his wife, Ida B. Thomas, is named as executrix. To his wife he gives his entire estate absolutely and at her death he directs that it be divided equally among his four children.

Two Bills Were Ignored.

The Grand Jury at Greensburg has ignored the bills against John Bundorf, assault and battery, and Samuel Stineman, both of Scottdale, for assault and battery. These were cross suits brought over a fight that the two had several weeks ago in which each were more or less injured.

An Afternoon Fire.

A defective flue was the cause of a fire alarm for the property of Jacob Tintsman on Pittsburg street, the house being occupied by Mrs. Smith. The alarm was sent in at 4 o'clock and the fire department was there in a hurry, but no plug connections were made, as some of the firemen got on the roof and put out the blaze. Fourth of July two years ago there was a similar fire at the same place.

George Was Acquitted.

George Kminusky of town was given a trial at Greensburg yesterday charged with carrying concealed weapons. He was arrested after he had fired several shots. He explained in his defense that he was about to travel a lonely road and fired the shots to discover whether or not his revolver was in working order, so that if he needed it to protect himself he would know that he was present with the goods. He was acquitted but had to pay the costs.

Bill Kunkle's Forecast.

William Kunkle has been irritating superheated Republicans for a couple of days by saying to them, "Now, that you fellows have elected Taft as President you will find that in four months after he takes his seat next March, every bank and mill in the country will be closed down." When they want to argue the matter he gives them the laugh by telling them that four months after the inauguration is the Fourth of July.

FIVE CHILDREN PERISH

Gas Explosion Starts Fire Which Consumes Their Home.

Grafton, W. Va., Nov. 13.—Five colored children were burned to death, their mother and father were burned and otherwise injured and their home destroyed at Beverly, Randolph county. The dead are: Alma Rice, age three months; Elsie, seven years; Myrtle, six; Emmett, five, and Arthur, three. The injured: Jefferson Rice and his wife, Eliza Jane Rice.

Shortly after the gas stove in the kitchen had been lighted for breakfast an explosion occurred, due probably to the fact that Mrs. Rice in lighting the fire had failed to apply the match to one of the two burners, which were arranged one above another. The kitchen was soon in flames, which quickly communicated to the bedroom above, where the children were sleeping. The mother and father, already somewhat burned, hurried upstairs to save their little ones, but the bedroom was a mass of flames and the children could not be reached. The father and mother saved their own lives by leaping from a second-story window.

KILLED BY A BLOW

Quarrel in Youngstown Saloon Ends in Death of Participant.

Youngstown, O., Nov. 13.—William Dowd, age thirty-five, supposed to be a railroad man from Oil City, was instantly killed by a blow delivered by Frank Walz, a driver of this city.

Dowd had been drinking with Walz and Thomas Fuscheon. There was an argument over drinks. Fuscheon took hold of Dowd and tried to argue with him when Walz is said to have struck him behind the left ear with his fist. Dowd fell and died instantly. Walz and Fuscheon were arrested.

Oil City, Pa., Nov. 13. — William Dowd, who was killed at Youngstown, O., was a member of a prominent family here. He was twenty-seven years of age.

Uncle Sam Gets Suicide's Money.

Helena, Mont., Nov. 13.—Albert Berger, a former Alaska miner, just before committing suicide at Canyon ferry threw $2,000 in postoffice money orders payable to himself in the stove, declaring that the money was in the hands of the government and no one would quarrel over it.

OLD RAILROADER IN LEGISLATURE.

Shadrach Murphy of Connellsville Now Oklahoma Legislator.

HAS HAD A NOTABLE CAREER.

Tells of Incident While Railroading Over Mountains That Helped His Candidacy in Far Western Field Where He Has Lived Several Years.

Many old time railroad veterans will be interested in hearing from Shadrach Murphy, who left Fayette county some fifteen years ago and is now proprietor of the Richland's farm near Edmond, Oklahoma. Since leaving Connellsville Mr. Murphy has had an interesting career and his election to the Oklahoma Legislature is his latest achievement.

Mr. Murphy was born and raised in Fayette county, and began railroading with the opening of the Connellsville Division of the Baltimore & Ohio railroad in the early seventies. Prior to that he will be remembered as having been employed as a blacksmith for the Connellsville Machine & Car Company, when the old plant was located on Water street, near the Baltimore & Ohio railroad station. When he railroaded here E. K. Hyndman was the Superintendent of the division. He has many relatives in this section.

The following letter was written on November 5, just after he had been successful at the polls. He says:

"I have come out victorious. I have come out victorious over the Democrats, and Oklahoma shall not be classed with the Solid South. I had a hard fight, had to beat Bryan and Governor Haskill, and all the State officials. They centralized their fight on me in Oklahoma county, it being the largest and most populous county in the State. So the Old Yank has downed his adversary and the Old Yank is from Pennsylvania, and Connellsville.

"The people who thought that a man who got a passenger train over a broken rail that was entirely gone, thirty feet of a distance, was fit for the Legislature. A lawyer by the name of Schartel who visits Connellsville, by some means or other got hold of a piece of history, that I had forgotten all about, which was a big factor in my election. It was while pulling the Express on the road in 1875, west one cold, bitter winter morning, sixteen degrees below zero that in coming near Pine Grove I was flagged.

"The section man said they had gone to Rockwood for a rail, the damaged rail having been broken to small bits. I started the section man down the road to Rockwood with his red light and told him to go as fast as he could to meet the hand car and tell them that I was coming. I pulled the engine up to the broken rail, as close as safely permitted. Then Conductor Billy Pratt and the train crew with the assistance of a couple of passengers and myself took up a rail, carried it forward and put it in place. I knew the rails were all of one length and one could replace the other, so Billy Pratt left a flag and we came on. It was well that we did for the section men could not find a rail, the snow being over a foot deep in the mountains.

"Now you wouldn't hardly think such things would come up in politics and be used in a fellow's favor, would you? I had a fine letter from Superintendent E. K. Hyndman, with one enclosed from President Robert Garrett at the time but had lost the letters. But my friend dug it up for me from the records of the Baltimore & Ohio and it was used as an argument for my election, as a man who could overcome difficulties by means at hand.

"I think that some of my old friends will remember me, and certainly many must know my son, John F. Murphy of Dawson. Am getting along nicely and will let you hear from me after I take my seat in the Legislature."

CROUP QUICKLY CURED.

Don't Let the Child Choke to Death While Waiting for the Doctor.

Croup should have prompt treatment. The life of many a dear one has been sacrificed because the right remedy was not at hand.

Pay close attention to the child who is feverish, thirsty, and occasionally coughs dryly and shrilly. This is the first stage of croup, and instant treatment should be given.

Hyomei, the miraculous, antiseptic dry air treatment, will cure croup in either the first or second stages. Easily inhaled, even when the breathing is irregular, it reaches more promptly than any other remedy the terribly inflamed membrane of the windpipe. Its soothing balsams act immediately, the inflammation is allayed, and the swelling reduced.

"Not long ago our little boy, Walter, awoke in the night with a bad attack of croup, so that he experienced great difficulty in breathing. We allowed him to inhale Hyomei, and he immediately began to breathe easier, and in half an hour was fast asleep. Our children, being subject to croup, we feel safe with Hyomei in the house, and I am glad to speak a good word for a remedy that will rob croup of its terrors."—Rev. Geo. Sisson, Pastor of M. E. Church, South Londonderry, Vt.

Hyomei (pronounced High-o-me) is the quickest acting and most sensible remedy ever discovered for all diseases of the nose, throat, and lungs. It is guaranteed by A. A. Clarke to cure catarrh, coughs, colds, asthma, bronchitis and croup, or money back. A complete outfit, including a neat hard rubber pocket inhaler, costs only $1.00. An extra bottle of Hyomei, if afterwards needed, costs but 50 cents.

PERSONAL.

Mrs. J. S. Bost of Lilly, Pa., has been cured by Father John's Medicine of a dry hacking cough which her doctor said was consumption. Mr. Bost says he believes Father John's Medicine will cure any throat or lung trouble if taken in time as that remedy builds up the body and fortifies it against disease.

Mrs. A. Bilodeau, 203 Lincoln St., Lewiston, Me., was sick four years. Her doctor said she had consumption, but she was cured by Father John's Medicine.

MICHIGAN VS. PENN.

Football Squad Meets Western Players at Ann Arbor Tomorrow.

ANN ARBOR, Mich., Nov. 13.—(Special.)—It will be Michigan vs. Ann Arbor on Ferry Field tomorrow and the indications are that the game will be witnessed by the largest crowd that ever attended a football contest here. Hotels, dormitories and fraternity houses are filled with visitors who have come to see the most important game of the season on Michigan's schedule. Several hundred enthusiastic rooters have come to town with the Pennsylvania eleven to cheer the red and blue to victory.

A feeling of confidence pervades the Michigan camp. The supporters of the Wolverine team figure that, although Pennsylvania probably has the best team it has had in years, it is no better than the Michigan squad.

The game tomorrow will be the third between the Pennsylvania and Michigan elevens. Both of the previous contests were won by Pennsylvania. Last year the score was 6 to 0 and in 1906 the score was 17 to 0.

Sterilize Your Milk Utensils with Gold Dust

Just leave milk alone and it will generate over 200 different kinds of germs.

See Farmers' Bulletin No. 63, issued by the United States Department of Agriculture.

Babies' milk bottles, cream pitchers, milk pans, pails, dairy utensils, cream separators, are kept sweet and clean and sterilized by the daily use of Gold Dust.

If you handle milk in any way, you waste time and take needless risks if you do not use Gold Dust.

AT THE THEATRE.

Myrtle Bigden.

Tomorrow morning at the box office the advance sale of tickets will be opened for the engagement of The Cutter Stock Company at the Soisson Theatre and from the present indications the ticket board will look like a cyclone had been in its vicinity before the day is at an end, as many have been inquiring about seats the past few days.

Prices are 10, 20 and 30 cents with ladies 15 cents tickets and this inducement will only be offered for Monday night, which is merely to introduce the company to those not acquainted. "For Home and Honor" will be produced the first night for which the company has an unusually strong cast Be sure and see the directoire gown Tuesday night.

Find Bad Money in Cesspool.

Hazleton, Pa., Nov. 13.—Wassil Cabi, or Kolma, the Hungarian miner of Black Ridge, who was arrested on the charge of making counterfeit nickels and dimes, was committed to jail in default of $500 bail. Witnesses testified that Cabi's eight-year-old son had passed some of the bogus coin. No counterfeiting molds or bad money were found in Cabi's house, but some counterfeit nickels were taken out of a cesspool into which, it is alleged, they were thrown by the accused.

Ladies' Rubbers 39c Pair.

A Little Money

Schmitz' Merit Soap 9 bars for 25c

Will go a long way at The New York Racket Store. We have anything you wish in any line and can supply all your wants at hard time prices. Special attention is directed to our bargains in millinery, shoes and winter goods of every kind.

THE NEW FAIR,
103 West Main Street, - - - CONNELLSVILLE, PENNA.
Opposite the New Second National Bank Building.

POPULAR PLACE IS HOT SPRINGS.

Aspiring Statesmen Hastening Thither in Droves.

"SUNNY JIM" TAKES TO GOLF.

Congressman Theodore E. Burton Arrives for Ten-Day Sojourn—Senator Scott Appears and Says Tariff Can Be Revised at Coming Session.

Hot Springs, Va., Nov. 13.—President-Elect Taft was joined here by Vice President-Elect Sherman, who said he had come to the Virginia mountains to rest and play for a week. He met Judge Taft on the veranda of the Homestead hotel and the two exchanged cordial greetings. "Come up to the cottage and see me any time," said Mr. Taft after the two had chatted briefly. "I will do it and be glad to," responded Mr. Sherman. But the vice president-elect occupied the afternoon with a game of golf with William L. Ward, national committeeman from New York, and the call was not made.

Speaking seriously, Mr. Sherman said no matters of state had brought him here. He was taking a week's rest and came here at the suggestion of Mr. Ward. The son and daughter of the vice president-elect accompany him. Representative Theodore E. Burton of Ohio is here and will remain ten days. Senator Burkett of Nebraska came to discuss proposed legislation. Mr. Burkett said he found Judge Taft in favor of pushing the postal savings bank bill at the next session of congress. He laid before the president-elect a plan for legislation authorizing the issuance of bonds to pay for permanent public improvements.

Senator Scott of West Virginia and Mrs. Scott came to spend some time, as did Senator Jonathan Bourne of Oregon. Senator Scott is in hearty favor of immediate tariff revision. He said he believed it could be accomplished at the short session of congress to begin next month.

Taft to Visit White House.

Washington, Nov. 13.—At the White House Saturday night and Sunday President-Elect William H. Taft will be the guest of President Roosevelt, having accepted an invitation from the latter to stop here on his return from New York en route to Hot Springs. Mr. Taft's cabinet probably will be discussed.

Taft Leaves Hot Springs.

Hot Springs, Va., Nov. 13.—President Elect William H. Taft left here today for Brooklyn, where he is to deliver the oration at the dedication of the prison ship martyrs' monument. Judge Taft will make only a brief stay in Brooklyn, returning here immediately after the dedication ceremonies.

Union League Favors Root.

New York, Nov. 13.—The election of Secretary of State Elihu Root as United State senator to succeed Senator Platt was advocated in resolutions adopted by the Union League club at a meeting last night. A committee of thirty was authorized to carry into effect the purposes of the resolutions.

New Deal for Sea Soldiers.

Washington, Nov. 13.—The United States marine corps is to be gradually withdrawn from the ships of the navy, the duty of the corps in the future to be to garrison navy yards and naval stations.

Root Not Candidate for Senate.

Boston, Nov. 13.—Secretary of State Elihu Root today said: "I am not a candidate for the senate. There has been a lot of talk about that, but it is all rumor."

THANKED BY BRYAN

Commends Grateful to Labor Federation for Support.

Denver, Col., Nov. 13.—In the convention of the American Federation of Labor President Samuel Gompers, thanking the speakers of the day, said that he had heard since coming to Denver that it was intended by the present session of congress to pass a bill amending the Sherman anti-trust law in a way detrimental to the labor movement. He said if such an attempt were made he would fight it out in the halls of congress.

At the request of Mr. Gompers the secretary then read a letter from William J. Bryan, in which he thanked President Gompers and the other members of the federation for the support given him during the recent presidential campaign.

Delegates to Mining Congress.

Harrisburg, Pa., Nov. 13.—Governor Stuart has named the following to represent the state at the annual session of the American Mining congress at Pittsburg, Dec. 2: H. H. Stoke, Scranton; W. J. Richards, Pottsville; Morris Williams, Philadelphia; W. W. Jamison, Greensburg; John H. Jones and W. W. Keefer, Pittsburg; George Whyel and Fred C. Kneighley, Uniontown, and W. H. Clingerman, Scottdale.

Reds Win a Game at Havana.

Havana, Cuba, Nov. 13.—The Cincinnati National league baseball team won the first of a series of twelve games with native teams by a score of 3 to 1.

FAMOUS EDITOR AND SON, WHO WAS KILLED BY FALL.

LOUISVILLE, KY., Nov. 13.—Messages of sympathy from prominent men all over the world have been received by Colonel Henry Watterson, editor of the Louisville Courier-Journal, since the tragic death of his son, Harvey Watterson, who was killed by falling from a window in New York City. Harvey Watterson had lived in New York for nine years, but made frequent visits to Louisville, and had a host of friends in this city. Soon after his graduation from the Columbia Law School, New York, he married Miss Alice Burrows. They had no children.

302 MINERS PERISH IN RADBOID DISASTER.

Hope Abandoned of Saving Men and Order Given to Flood the Mine.

Hamm, Westphalia, Germany, Nov. 13.—The greatest mine disaster in many years in Germany occurred at the Radbod mine, three miles from this place. There was an explosion in the mine and almost immediately the mine took fire. Of 380 miners working at the time only six escaped without injury. Thirty-five were taken out badly injured and thirty-seven were dead when brought to the mouth of the pit. The remaining 302 have been given up for lost.

The explosion destroyed one of the shafts, which had to be repaired before the rescue work was begun. In addition, the flames and smoke proved almost insurmountable obstacles in the early efforts of the rescuing parties.

It was decided that any further attempts to rescue the entombed men were vain, and an order was issued to flood the mine. First reports indicated that the accident was the result of an explosion of coal dust, but the statements of the injured men render this improbable, and it is not clear just what caused it.

COUNCIL OF WAR TODAY

Foot and Mouth Disease Causes Anxiety at Harrisburg.

Harrisburg, Pa., Nov. 13.—A special meeting of the state live stock sanitary board was held today to take action in conjunction with the federal officials in regard to the outbreak of the foot and mouth disease among cattle in Union, Montour and Northumberland counties. State Veterinarian Pearson attended the meeting, having made an extensive investigation of the conditions in those counties, accompanied by Secretary of Agriculture Critchfield and three United States officials.

In the present outbreak only sixteen farms are involved. State Veterinarian Pearson will remain in charge of the work until it is finished. He is assisted by the entire permanent staff of veterinary inspectors, consisting of ten men, and by several temporary appointees.

"GOO, GOO," SAID BABE

And It Saved the Father From a Workhouse Sentence.

Cleveland, Nov. 13.—Seated in his mother's lap, Gerald, the two-year-old child of Thomas Murphy, charged with neglect, saved him from a workhouse term. The case looked bad. The baby picked up its father's hat and, pointing a candy-besmeared finger at Judge Levine, said: "Goo, goo."

The judge said: "I was going to give you a long sentence, but a man who has a child like that should have a chance. You are free, but take care of that baby."

FLAWS FOUND IN OIL OPINION

Upon Which Will Be Based Final Effort to Collect.

BIG FINE CASE GOES HIGHER.

Department of Justice Announces Sufficient Basis Has Been Found in Recent Adverse Decision Upon Which to Ask for Writ of Certiorari.

Washington, Nov. 13.—Following the recent action of the circuit court of appeals in Chicago in refusing the United States government a rehearing of the Standard Oil case, made famous by its $29,000,000 fine, the department of justice officials have decided to carry the case to the supreme court of the United States.

The following statement was issued by the department:

"A prolonged conference was held at the department of justice with respect to the action of the circuit court of appeals in Chicago in refusing a rehearing of the Standard Oil case. Attorney General Bonaparte was in consultation with Solicitor General Hoyt, United States Attorney Sims of Chicago and his assistant, Mr. J. H. Wilkerson, and Mr. F. B. Kellogg, special counsel in the civil suits against the Standard Oil company. It was found that a considerable number of changes had been made in the opinion of the court of appeals originally rendered and that Judge Baker of that court had filed a separate concurring opinion which differed materially in its reasoning from that of Judge Grosscup. After a careful consideration of all phases of the situation it was determined that an application should be made to the supreme court of the United States when it reconvenes on Monday, Nov. 30, for a writ of certiorari to bring up and review the action of the circuit court of appeals. The necessary papers for this purpose will be prepared without delay."

JOHNSON BEATEN

Receivers Take Charge of Cleveland Trolley Companies.

Cleveland, Nov. 13.—Judge Tayler of the federal court has appointed Warren Bicknell and Frank A. Scott joint receivers for the Municipal Traction company and the Cleveland Railway company. Each of the receivers will furnish a bond of $100,000.

Bicknell is probably one of the best-known electric railway builders and operators in the country. He is president of the Havana Electric railway, which controls all the street railways in Havana, Cuba. He is identified with large number of electric traction companies in Ohio and other states. Frank A. Scott is secretary and treasurer of the Superior Savings and Trust company of this city.

The receivers will take charge of the traction system at once and will operate it under the direct supervision of the court. The rate of fare, it is said, will be as low as can be made consistent with good service.

WAR A POSSIBILITY

Balkan Crisis Is Rendered Acute by Servian Hostility to Austria.

St. Petersburg, Nov. 13.—Although an air of outward calm is maintained at the Russian foreign office, the Balkan situation has now reached an acute stage, where everything depends upon the nature of the note which is expected from Vienna today and the outcome of the mediation which Russia, France and Great Britain have undertaken at Belgrade, at Austria-Hungary's request, with a view to limiting the belligerent activity of Servia.

If mediation is not successful war is recognized as a possibility in authoritative circles. The Austro-Servian relations are too strained, it is believed, to permit present conditions to continue indefinitely.

AGED WIDOW ENRICHED.

Is Awarded $100,000 Estate of Relative Who Didn't Know Her.

Trenton, N. J., Nov. 13.—Mrs. Mary Wheeler Somerby of Newburyport, Mass., an aged widow, was declared to be the sole heir to an estate valued at $100,000 by an order filed in the chancery court here. The property was that of John Wells Russell of East Orange, N. J., who died a year ago leaving no will.

Believing that he had no relatives, the state began proceedings to take over his estate, but a subsequent inquiry established the justice of Mrs. Somerby's claim, based on consanguinity. Mrs. Somerby is eighty years old and is said to have been in poor circumstances.

Taking of Evidence Begins.

Laporte, Ind., Nov. 13.—The introduction of evidence in the trial of Ray Lamphere, charged with the murder of Mrs. Belle Gunness and her three children by setting fire to the house, began this morning, a jury having been secured last evening.

Chinese Emperor Sinking.

Peking, China, Nov. 13.—It is the consensus of opinion in Peking that the emperor of China is very sick and is reported as sinking. He will not accept western medical attendance.

SHOW CAUSE WHY YOUGH SHOULD BE SLACKWATERED

(Continued from First Page.)

through which the Yough river now flows this basin would now contain a body or lake of water at least twenty miles square or 400 square miles. The height of the ridge is from eight to nine hundred feet above the river bed. The half or four hundred feet would be the average depth of this lake, which is to say a body of water covering four hundred square miles four hundred feet deep would be there today. Such a body of water is not needed but it suggests the benefit of damming of this crevice in the mountain through river channels.

It also suggests the wisdom of the Government granting permits for railroad beds, town sites, manufacturing plants at a certain elevation from the natural river bed. Without such permit the title to a plat of lots should be held to be defective, and likewise the other improvements. Municipal governments are awake on this subject protecting the people against the people for the betterment of all. These are encouraged by the success of other cities adopting such precautions. The government seems to stand alone and unencouraged and yet it is the sole proprietor of the river beds. Cloud bursts are common. Enlargement under dread would be hindered. Who is to blame? The low grade rail is fast eobwebbing the land and the spider will soon be king of the situation.

Borough Engineer J. B. Hogg, who is taking great interest in the coming investigation, reported that his field staff has not yet reported on the available sites for manufacturing purposes between Connellsville and West Newton, but that they would be ready in time for Tuesday's hearing. The former Board stated that but 950 acres were suitable, which is not accepted as authentic by the river boomers.

H. A. Daune, general manager of the Aluminum Company of Pennsylvania and an Australian chemist of note, declared that after repeated investigations he is convinced that coke does not deteriorate when carried by water. He says the use of water during incandescence makes the product impervious to deterioration from this source after it has cooled. Carbon is intractable when immersed in water, and coke is mostly carbon. He also was of the opinion that water shipments would result in no more loss than by rail, as the coke would not be subject to rough haulage.

John Duggan submitted some figures comparing freight rates by rail, by water and by rail where there was no competition. His deductions were as follows:

	By Rail	By Water	No Com.
Class No. 1	.63	.40	1.30
Class No. 2	.52½	.34	1.00
Class No. 3	.42	.27	.97
Class No. 4	.26	.17	.84

These figures were taken by comparing the rate between St. Louis and St. Paul by rail and water, and to Oklahoma City from St. Louis, 150 miles shorter haul, where there is no water competition. Where local rates were concerned, Mr. Duggan submitted the rate on curbing, brick, sand, etc. The Pittsburg & Lake Erie rates average 75 cents a ton for these products to Pittsburg, the Pennsylvania $1.00 with prospects of a lower rate if any large amount is to be shipped, while the Baltimore & Ohio ranges from 55 to 75 cents, according to the commodity.

Mr. Wallace suggested that the possibility of developing 270.00 horse power, which can be turned into electric energy, would not only pay the cost of the proposed improvements, but would provide a new method for hauling the minerals to the point of shipment. Mr. Wallace expressed his conviction that the Chamber of Commerce can show that the adverse report of Captain Adams, approved by Major Newcomer, is entirely wrong.

Mr. Duggan closed the meeting by a discussion of property values, saying those owning land in the Youghiogheny valley will be in the same position as those along the Broad Ford branch, where the coal is worked out, unless it is possible of developing the present mineral resources of the community.

T. W. Baxter of the refreshment committee served a tasty lunch of oyster and ham sandwiches, cakes and coffee.

Ramden Junction, O., Nov. 13.—Mrs Elizabeth Murray, age eighty-six, died at her home here, her demise hastened by grief over the accident that befell her son, Thomas Murray, killed by a train a few days ago.

Chicago Grain Market.

Chicago, Nov. 12.—After establishing a new high record mark for the May delivery and equaling yesterday's high price for December, the wheat market today eased off on profit-taking, and closed weak at net losses for the day of ¼ to ¼@⅝ cent. Corn was steady, oats were weak and provisions firm. December options closed: Wheat, 103¼; corn, 62⅛; oats, 49@49⅛.

Pittsburg Markets.

LEADING FIGURES IN TRIAL OF RAY LAMPHERE AT LAPORTE, IND.

LA PORTE, IND., Nov. 13.—Ellsworth E. Weir, famed throughout Indiana as a trial lawyer, is aiding in the defense of Ray Lamphere, the farm hand charged with the murder of Mrs. Belle Gunness, the woman "Bluebeard," and her children. H. W. Worden of Laporte is Lamphere's leading counsel, and Judge J. C. Richter of the Circuit Court is presiding. Lamphere's defense is an alibi, and his counsel will attempt to prove by several witnesses that Mrs. Gunness was seen at her farm two months after she was supposed to have been killed and her house burned.

FALLOWS PLANS TO EXTEND WORK.

Proposes to Teach Christian Psycology by Mail.

ENLISTS AID OF SCIENTISTS.

Celebrated Episcopal Prelate Announces Plans for "League of Right Living," Through Which He Proposes to Educate Members.

Chicago, Nov. 13.—Plans for giving world-wide scope to the Christian psychology movement, which he started a year ago along purely local lines, were announced by Bishop Samuel Fallows to his congregation at St. Paul's Reformed Episcopal church.

A new international organization, patterned in many respects after the Christian Science movement, but differing radically in its attitude toward

BISHOP FALLOWS.

medicine, is the agency by which Bishop Fallows declares he expects to spread broadcast the teachings of psychotherapy.

It will be known as the "League of Right Living," with the "promotion of health and happiness" for its avowed purpose. "Local centers," he announced, "are to be established wherever possible." The bishop will be at the head, with title of president.

So far perfected is the enterprise that Bishop Fallows was able to announce the names of noted neurologists in Europe and the United States who have agreed to assist him by contributing articles to a "course of study," comparable in some ways to Mrs. Mary Baker G. Eddy's "Science and Health." The work of the league will be carried on by "correspondence study" this department to be under the charge of Bishop Fallows, Dr. Sidney Kuh of Chicago and others. Bishop Fallows said:

"As stated more definitely the purposes of the league are: To educate its members in the principles and methods of right living so that they may avoid the tendency to nervous disorders and acquire a freer, fuller use of their inherent powers; to assist both the ill and the well by suggesting methods of self help. It will particularly aim to relieve the disorders most amenable to mental and spiritual treatment, such as nervous prostration, nervous exhaustion, mental suffering, sleeplessness, some forms of hysteria, melancholia, anger, fear, etc."

FINDS BULLET IN HIS VEST POCKET.

Postmaster Morgan Succeeds Where Doctors Fail in Locating Shot That Nearly Killed Him.

New York, Nov. 13.—If the rapid recovery of Postmaster Edward M. Morgan, who was shot last Monday by Eric H. B. Mackay, a demented stenographer, continues he will be at his desk the first week in December.

Mr. Morgan asked today if the bullet which wounded him had been found. When told that it had not been asked to have his overcoat brought to him, saying that perhaps the leaden ball had become lodged in the lining after passing through his side. The overcoat was brought, but the bullet was not in the lining.

"Well, it must be somewhere; bring me the rest of my clothing," said Mr. Morgan. His coat and vest were brought and after some minutes the postmaster fished a battered piece of lead out of a lower vest pocket. Holding it up, he said to his wife:

"You've heard of the blow that almost killed father, my dear? Well, here's the ball that almost killed father."

ICEMAN SLAIN WITH TONGS

Tools of Trade Prove Effective Weapon in Tragic Quarrel.

New York, Nov. 13.—A pair of ice tongs were used with deadly effect to settle a feud between two Eastside icemen, Louis Schneider and Harry Feurstein. Until recently the men have supplied the same district, but last month decided to divide the territory.

Feurstein heard that Schneider had accused him of acting unfairly and he went to the latter's establishment and started for Schneider with a knife. Schneider, according to witnesses, seized a pair of tongs and struck at the head of his rival. The tongs opened and one of the prongs buried itself in the brain of Feurstein, killing him instantly.

MANILA HAS PURE WATER

New Two Million Dollar Plant Placed In Operation.

Manila, Nov. 13.—Manila's new water system, constructed at an outlay of $2,000,000, is completed. The water was let loose at the source of supply in the Mariquina valley and sent coursing on its twenty-mile journey to the city.

In its twenty-mile journey the water is carried through a steel pipe line and in a concrete conduit.

The assurance of a supply of pure water for Manila is regarded as one of the greatest improvements made by the Americans during their occupancy of the Philippine Islands.

To Honor Lincoln's Memory.

New York, Nov. 13.—The superintendents of every school district in the United States will be asked by the Lincoln centenary committee of this city to have Lincoln's Gettysburg address read to the children in their schools at noon precisely on Feb. 12 next, the one hundredth anniversary of Abraham Lincoln's birth.

The Coolness of Peter.

By EDGAR WELTON COOLEY.

Copyright, 1908, by E. W. Cooley.

"B-R-R-RING!" sounded a bell shrilly in the stillness.

Peter Quiggles opened his eyes with a start. Then sat bolt upright and stared. Not four feet from him stood a man with a mask over his eyes. He was holding a dark lantern, flashing the light glaringly in Peter's face.

"How dare you," began the man with the mask, offended—"how dare you set an alarm clock to go off at the very moment I'm ransacking the house? D'ye want to scare me to death? How do you know but I might be subject to heart failure or something and that the sudden fright"—

"I—I'm sorry," began Peter humbly. "I didn't mean to disturb you. I—I can't sleep comfortably on one side all the time, you know, and I have to set the alarm to awaken me so I can turn over."

"Oh!" said the man apprehendingly. "Well, don't let it occur again."

"I'll try not to," replied Peter obligingly. "But, you know," he hesitated, "you can't always tell about that clock. You can't always anticipate its behavior. It is a very absentminded clock and possesses some very peculiar notions of its own. Really it is the most aggravating clock you ever saw. Why, once I set the alarm for 4 o'clock in the morning, I wished to go to the station to meet my uncle, you know. He was a very rich bachelor, with no immediate family. Besides, he was in exceedingly poor health. And, would you believe it, that miserable clock betrayed the confidence imposed in it?"

"And your uncle?" asked the man interestedly.

"My uncle was compelled to hunt me up and ring us out of bed. It was very embarrassing. Of course we had to make some kind of an explanation. But unfortunately, you know, my wife and I had no opportunity to consult together. We told entirely different stories. That made my uncle suspicious."

"Naturally," said the man.

"Then, to make matters worse," resumed Peter, with a sigh, "my uncle was a chronic story teller, one of those people who take a frenzied delight in relating a long narrative with a joke at the end of it—the kind of a joke, you know, that you don't really laugh at until the next day."

"I understand," said the man, taking a seat on the edge of the bed resignedly. "I've heard them kind of jokes myself. I call 'em vaccination jokes. They have a point to 'em all right, but they don't take until later. Besides, they are pretty near as bad as having the smallpox."

The man chuckled softly. "Well," Peter continued, "at breakfast that morning this uncle of mine told one of his stories. It was during the days when nearly everybody had one of those silly little things they called chestnut bells. You remember?"

"Perfectly," said the man.

"Well, at the very moment my uncle sprung his joke and leaned back to enjoy our mirth that clock—that unregenerate, malicious clock"— Peter laughed long and loudly.

"Don't!" cried the man in a hoarse whisper, glancing affrightedly about. "You'll arouse the household."

"There isn't anybody else in this part of the house," reassured Peter, "but my wife, asleep in the next room, and she's deaf, you know. Really she is so deaf that I can wear a red necktie, green checkered trousers and a purple vest and come home any hour of the night without awakening her."

"You're lucky," said the man, "and being lucky"—

"Lucky!" repeated Peter. "I'm so lucky"—

"Never mind about that," interrupted the man. "I was just going to remark that I never saw a lucky man who didn't have money."

"Money?" replied Peter. "Of course I have money. Really, I've got so much money that I can't fall down without breaking a bill, you know. Once I"—

"Just hand it over, then," interposed the man with the mask commandingly.

"Do I understand that you wish me to hand my money over to you?" queried Peter cautiously.

"That's what I remarked," replied the man, "and you'd better be quick about it if you don't want"—

"My dear sir," said Peter impressively, "as one who has speculated more or less successfully, I beg to give you a little timely advice."

"See here," said the man irritably, "I ain't going to waste any more time with you. I've wasted too much already."

"Why, so you have," remarked Peter thoughtfully, "but you see it isn't exactly my fault; I didn't invite you here, and, really, I'm not insisting upon your staying, you know. Maybe you're waiting for me to order you out?"

"Well, you are cool," said the man admiringly.

"Of course I'm cool," replied Peter. "It's very convenient to be cool sometimes—on a cold winter's night, for instance. You see, your wife won't put her feet against you if you are cool."

The man with the mask laughed softly, then arose to his feet. "Look here," he said, "are you going to give me that money or ain't you? I've got a gun in my hand, it's pointing at you, it's loaded, and my finger is on the trigger."

"It certainly is very kind of you to warn me of my danger," replied Peter gratefully. "The light of your lantern blinds me so that I had not noticed you had a gun. But, really, won't you please point it in some other direction? It makes me nervous, you know, and when I get nervous my memory fails me quite suddenly. I might forget where I put my money. I always experience considerable trouble in remembering what I do with all my money anyhow."

"Come, come," said the man. "Hand it over. Fork it out. I can't stay here all night. I want to be going."

"Since you speak of it," replied Peter wearily, "I really wish you would go. I would enjoy going back to sleep, you know. I'm tired. You see, I was out to the lodge last night. Do you belong to any lodge? No? Well, the union, then—you belong to the union, of course?"

"I see very plainly," said the man resolutely, "that you do not intend to give me that money peacefully. Guess I'd better"—

"Why, my dear sir," responded Peter naively, "I haven't refused, have I? Really I beg your pardon if I have appeared backward in complying with your most natural and reasonable request. I am not unmindful, you know, that you are at this moment a guest in my house, and I certainly meant no disrespect. How much money do you want?"

"All you have," replied the man gruffly.

"But, my dear sir," protested Peter humbly, "if you could just manage to get along with a trifle less—just a trifle, you know—perhaps some time in the future I can repay your kindness and consideration. You see, tomorrow morning before breakfast is the day and the hour when our cook expects her week's wages. Possibly you lack the experience that would enable you to thoroughly understand the situation, but really, you know, I cannot imagine any position more embarrassing in which a man could be placed than to be forced to face his cook on such a momentous occasion without a cent in his pocket, and my cook unfortunately is a very robust cook. Really I shudder to even think of such a predicament."

"To thunder with the cook!" replied the man shortly. "I want to know if you're going to"—

"And, then, there are the gas man and the iceman," resumed Peter. "Of course I realize that you have nearly as much claim upon my money as they have—really it is rather difficult to discriminate between you—but it wouldn't be just right, you know, to give you all the money and not save a cent for the other holdup men, now, would it? Of course I understand that between you all you will get all my money anyhow, and I'm really not much concerned who gets the most, only I don't want to appear partial, you know."

"You can do just as you please," replied the man determinedly. "You have your choice between giving me all your money and taking the consequences. I'm not here for my health, I tell you."

"Oh, well, if you feel that way about it," said Peter resignedly, "you'll find my trousers on a chair at the foot of the bed. My purse is in the right hip pocket."

The man with the mask walked to the chair, slipped his hand in the pocket indicated and pulled out a black wallet. Emptying the contents upon the bed, he counted them deliberately.

"See here," he said indignantly, "there is only $10.24 here!"

"What!" gasped Peter breathlessly, leaping out upon the floor. "How—much—did you say?"

"Ten dollars and twenty-four cents," replied the man.

"Are you sure?" demanded Peter in an agony of despair. "Are you certain you haven't made a mistake?"

"No," said the man. "That's all there is."

"Oh, dear, dear!" wailed Peter. "I see it all. I didn't want to believe it, but I guess it must be true. It really is too bad. I don't see why she did it. She might have known"—

"She?" said the man. "Who?"

"My wife," replied Peter tearfully. "I am exceedingly sorry, but she beat you to it, you know."

"Well," said the man, rather disappointedly, "I reckon this will have to do then. But next time"—

"Pardon me," interrupted Peter, who had followed him to the door, "but really I am afraid you will fall down the stairs. It is so dark behind that lantern. Wait. I will turn on the light. There; now you can watch me and see where you are going at the same time."

"Thank you," said the man, backing slowly down the stairs, his revolver still in his hand. "As I was going to remark, I never met anybody who was quite"—

"No; that isn't right," said Peter. "You have to turn that small knob first. There; that unlocks the door. But you were saying"—

"I was going to say," again began the man, looking up at Peter, but placing one hand behind him and pulling open the door, "that I never"—

But two policemen suddenly sprang through the door and pinioned the man's arms behind his back.

"Really, I am sorry," grinned Peter, "but I guess you will have to finish your sentence in jail, won't you? You see, that bell was a burglar alarm. You rang it when you entered my room, and unfortunately, you know, it is connected with an automatic device at the police station. They were rather long coming, but I trust you found my companionship agreeable. I certainly did my best to entertain you."

"Say," said the man, submitting quietly to the officers, "you lied to me about the iceman, didn't you? Your wife don't need no ice when she's got a cold storage plant for a husband. You're the coolest"—

But the patrol wagon was rolling away.

SUPPOSE you were cast up on an uninhabited tropical shore with nothing but a penknife and a magnifying glass? How would you go about getting a living? How would you manage to defend yourself from the wild beasts and the wilder elements?

These are problems that Tom Blake and the beautiful Miss Leslie and Winthrope had to solve. How they did solve them is told in

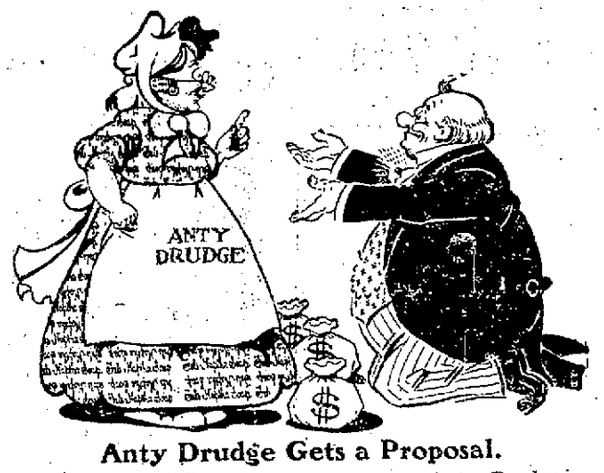
INTO THE PRIMITIVE

BY ROBERT AMES BENNET ILLUSTRATIONS BY RAY WALTERS

The beginning was at Capetown, when Blake and Winthrope boarded the steamer as fellow-passengers with Lady Bayrose and her party—which included the beautiful Miss Leslie. Three days later the ship went to pieces in a cyclone on a wild and isolated coast, and these three—the American engineer, the Englishman, and the heiress—were the only survivors. And when highly cultivated civilization was brought face to face with the primitive, what law could prevail but the survival of the fittest? It is a story full of vigorous strength and unusual charm.

It will be printed serially in these columns. The opening chapters to appear in the near future. You will not want to miss it.

The Opening Chapters Will Appear in our Saturday's Issue.



Anty Drudge Gets a Proposal.

Mr. Millions—"I want you to marry me, Anty Drudge. I am wealthy and I can make you happy."

Anty Drudge—"Let's see, Mr. Millions. You are a manufacturer of washboards and washboilers and you are interested in the coal trust, aren't you? Yes! And you wouldn't want your wife to spoil your business by talking. On the whole, I think I can find more happiness in telling women how to save themselves drudgery, save fuel and keep their health by using Fels-Naptha in lukewarm water, without boiling, than I can by marrying you. Good Day."

Horace Greeley used to say that the man who worked with his head and his hands together could do twice as much work as the man who worked only with his hands.

You women who wash clothes, think that over.

Want to make your head save your hands?

Then study the question of soap. Try Fels-Naptha in lukewarm water.

Fels-Naptha actually does the work of cleansing; doesn't leave it for you to do with hard-rubbing.

Fels-Naptha takes the dirt out without boiling. Does it better, too.

Fels-Naptha makes your washing twice as easy and takes only half the time of the old way. Not only the white clothes but the woolens, flannels, colored things.

Don't take our sayso. Try it for yourself. But be sure to get the genuine Fels-Naptha, be sure to use only lukewarm water (never hot), and be sure to follow directions on the red and green wrapper.

You won't be using your head if you don't do these things.

FOR SICK CHILDREN.

Mrs. Rose Hawthorne Lathrop, Who Has Done So Much Good Among Sick Children of New York, Recommends Vinol.

"In my work among the destitute sick I give Vinol in many cases where it would be impossible to give cod liver oil in any other form, on account of the extreme weakness of the patient's stomach. I have known Vinol to restore appetite and infuse new life in many cases of sick women and children when everything else failed. Little children seem to delight in taking Vinol."

The reason Vinol is so far superior to old-fashioned cod liver oil and emulsions is because it contains all the medicinal, body building elements of cod liver oil actually taken from the cods' livers with the disagreeable oil eliminated and tonic iron added.

As a body builder and strength creator for old people, weak women, delicate children, after sickness and for all pulmonary troubles, Vinol is recommended by over 5,000 of the leading druggists of the United States. Your money will be returned on demand if Vinol fails to benefit. Graham & Co., Druggists, Connellsville, Pa.

Meeting of Pedagogues.

SHARON, Nov. 13.—(Special.)—There was a good attendance at the opening here today of the semi-annual meeting of the school superintendents and principals of Western Pennsylvania and Eastern Ohio. The sessions will continue over tomorrow.

C. W. ALLEN, Trav. Pass. Agent.

PATIENTS FELL OFF DURING THE YEAR.

Industrial Depression Responsible—Condition at Cottage State Hospital.

TRUSTEES MEETING YESTERDAY

Report of Institution Shows That Money From Pay Patients Has Left Balance in State Appropriation. To Make Improvements.

At the meeting of the Trustees of the Cottage State Hospital, held yesterday afternoon, it developed that the number of patients had fallen off materially since the industrial depression of last fall set in. The report of the Executive Committee, which dealt with this and other matters, was presented by Dr. T. H. White. It read as follows:

Since the last meeting everything has gone along smoothly in the management of the hospital. There has been, however, a marked falling off in the number of patients admitted during 1908, due no doubt to the industrial depression. The number of patients admitted since January 1st, 1908, was 208.

For the quarter ending May 31st, 1908, there was received from pay and part-pay patients, $301.90, so that the State appropriation was not exhausted by $152.10. For the quarter ending August 31, 1908, the amount received from pay and part-pay patients was $150.55, leaving $222.74, which was not needed for that quarter, leaving an unexpended balance in the State Treasury above the quarterly allotment of $2,500 of $354.84. This no doubt will be further increased for the quarter ending November 30th, and possibly for the quarters ending February 28th, 1909, and May 31st, 1909, so that if the trustees see fit this money might be made use of in painting the building and fences.

The representatives of the State Board of Charities has made four visits to the institution this year and has always expressed entire satisfaction with the management. A new method of auditing the accounts has been inaugurated by the present Auditor General. The Traveling Auditor of the Department makes a visit immediately after the disbursements of each quarter. This is a decided improvement on the old method of auditing once or twice in two years.

Early in the summer the boiler in the laundry sprung a leak and when it was examined it was found that all of the tubes were so badly rusted that they would have to be replaced with new ones. The work was done and the expense charged to maintenance.

The matter of making an estimate of the amount of the appropriation necessary for the conduct of the hospital for the next two years was brought up. Owing to the unusually small number of men employed in the region during the year past the number of patients as noted was smaller than usual and the expenses of the hospital ran under the receipts. Under like conditions it would require less money to conduct the institution during the coming year, but it was agreed among the trustees that conditions would be different in 1909 and 1910, and that the usual appropriation would not probably more than suffice to pay the expenses over and above the receipts from private sources. It was therefore agreed to apply for the usual appropriation of $10,000 per annum.

The superintendent's report for October was as follows: No. of patients on October 1st, 10; No. of patients admitted, 20; No. patients discharged, 16; No. patients died, 2; No. patients remaining, 14; out patients treated, 19; return visits, 22.

The Trustees present were President J. M. Reid, Secretary T. H. White, Treasurer Charles Davidson and Dr. H. F. Atkinson and H. P. Snyder.

ALL STARS NOW HAVE FIRST PLACE FAST.

Clinched Position Last Night by Defeating Amateur Team.

B. & O. FIVE WIN THREE GAMES

Club Standing.

	W.	L.	Pct.
All-Stars	12	3	.800
B. & O. Clerks	10	5	.667
Dunbar	8	5	.615
Wright-Metzler	5	7	.417
Westmoreland Grocers	4	8	.333
Amateurs	3	12	.200

The All-Stars clinched their lead in the Merchantile League last night by whining three sucessive games from the Amateurs on the Casino alleys. Neither team was guilty of rolling excessive scores but the All-Stars were not hard pushed at any stage of the game. The score follows:

Amateurs.

	1st	2nd	3rd	To.	Av.

TO BE NEAR HARRY

Mrs. Thaw and Daughter Alice Take Board at Matteawan.

Fishkill Landing, N. Y., Nov. 13.—Mrs. William Thaw, mother of Harry K. Thaw, and her daughter Alice, who was the Countess of Yarmouth, arrived at Matteawan and a short time later it became known that Mrs. Thaw and her daughter had decided to make their home for a while at least near the asylum for the criminal insane, where Harry Thaw is confined.

Mrs. Thaw and her daughter have taken board temporarily with the family of Police Justice Phillips, who lives about a mile from the asylum. Samuel K. Phillips, a brother of the justice, has been retained as Thaw's local counsel.

SEVENTEEN MILLIONS SPENT FOR BASEBALL IN ONE YEAR.

What do Americans spend for baseball in a season? To fix the sum at $17,000,000 might seem like an exaggeration to some people. That is money enough to buy baseball tickets for the 21,000,000 men of voting age in the country. With enough left over to allow one-half of them to see a second game.

Yet this estimate is conservative. It does not cover all the ground. In the $17,000,000 are $3,000,000 for six months of baseball by the 16 clubs in the two great leagues; $10,000,000 or thereabouts, taken by 244 professional nines in the minor leagues; and estimates as near as may be of the money spent by amateurs and men and boys who follow the sport in thousands of parks and open lots.

The $13,000,000 spent at the gates of 38 leagues for games by professional clubs cover every large city and the towns of consequence, with very few exceptions, from the Atlantic to the Pacific. The total attendance at the National and American league games last year was estimted at 6,136,557 persons, 2,737,793 going to the National games. The 6,136,000 would be enough people to populate Greater New York, Philadelphia and Greater Pittsburg. The estimate of receipts for these two leagues is based on the general rule that two-thirds of a city game pay 50 cents and over one-third an average of 25 cents. Adopting these figures, the 6,136,557 spectators paid at least $2,356,000. This takes no count of $1 seats. In the opinion of authorities the extra charge of 50 cents would in a season bring the receipts up to at least $3,000,000.

The popularity of the game in each of the 11 cities where these league games are played is shown by the attendance. There are two teams in Chicago, Boston, St. Louis, Philadelphia and New York. Each team plays 154 games in a season, lasting a trifle more than six months. One half of these games the club plays on the home grounds.

Pawva Managers Meet.

At a meeting of the Pawva League managers at the McClelland House, Uniontown, yesterday afternoon Uniontown was officially awarded the pennant. Another meeting has been called for January 20 at the same hotel. The drafting season will close January 15, and a reserve of 20 players has been filed with manager Farrell.

The following representatives were present: J. J. Gibson and Jud Arison, Philadelphia and Greater Pittsburg. The estimate of receipts for these two Uniontown; Frank J. Welsh, Clarksburg; Thomas Raymond, Fairmont; H. E. Saunders, Grafton; H. A. Barclay, Connellsville, and W. H. Zollers, Jr., Charleroi. President James Gronniger presided.

Wright-Metzler Company.

BARGAINS FROM THE NEW BASEMENT STORE.

16 Inch Unbleached Crash Towling 5c

Imported 10-inch China Bowls, worth $1.50, ... $1.00

The Making of Clothes

Merely claiming superiority would be wasting valuable space. We have repeatedly stated that our clothing for men was, by far, the best obtainable in this vicinity. We can give ample proof in substantiation of this claim.

The makers of our clothing buy their fabrics in quantities sometimes equal to a mill's entire output.

They specialize each department to a corps of trained men and submit every detail of the work and also the finished product to impartial criticism before presenting it for sale.

Isn't it reasonable to assume that they are in a position to produce values in excess of the tailor who makes but a few suits a season? Best, because quantities purchased insured price concessions in materials and division of work among specialists assures perfectly made clothing. The saving thus made reverts to you, and is the difference between the custom tailor's price over ours, for the same quality.

End of the Week Sale of Taffeta Silks

Thirty-six inches wide, heavy, rustling taffetas, not a thing wrong with them, but that the color assortments are broken. If the color you want is listed below you can save 25c a yard on every yard you need.

$1.50 Taffetas in White, Blue, Green and Black $1.25

$1.25 Taffetas, in Rose, Red, Grey, Blue and Black, ... $1.00

White Bed Spreads

81x90 Inches, Regularly Worth $2.00,

$1.50

This size goes far in telling the story, but "weight" and "variety of design" adds much to the potency of this offering, made in two styles, with or without fringe. These spreads will add much to the appearance of the bedroom, as their appearance amply denotes their worth. The lot is not large and the exceptional value quoted will make quick work of them.

Men's Neckwear in Plain Colors

Is Being Demanded by the Best Dressers.

Following this demand we present in broad selection all of the new and wanted shades in plain effects, deep, rich reds, navy and light blues, a host of greens and browns; in fact, nearly any color or shade of color that you desire. We follow closely fashion's trend and this collection is but another example of how thoroughly we do things. In addition we will show you an extensive selection of figured cravats in newest designs. Priced 50c

Interwoven Hose for Men

Made Without a Seam and with Double Heels and Toes.

Wearing a hole in your sock in one day is a most expensive habit, a habit easy of avoidance, now that Interwoven Hosiery has been invented. It's all in the weave and quality of yarns. Not a seam in them anywhere, and the double construction of the heel and toe wonderfully resists wear. We show them in every wanted color, absolute fast. They are presented in both wool and cotton at the same price 25c

Coat Sweaters Are Sightly and Protective.

A Sweater that goes on and off like a coat: a Sweater that can be worn beneath the coat, having somewhat the appearance of a vest; not bulky in any sense but so closely knitted as to afford ample protection against the chilly winter air.

Grey and white are the most wanted colors. The ones we show are absolutely perfect in fitting qualities; closed with large perfect pearl buttons and made from new strong elastic yarns that insure a lasting fit and permancy of shape. This last is an all-important feature as a loose baggy sweater is an abomination.

Coat Sweaters for Men ..... $1.50 to $5.00

Coat Sweaters for Boys ..... $1.00 to $1.75

ECZEMA CURED

Johnstown, Pa., Jan. 2, 1908.

The Dr. Taylor Remedy Co.

Gentlemen—I have been a sufferer from Psoriasis for eight years, and tried every medicine I heard of. I never got any relief until I tried your remedies. I recommended them to Mrs. Stephens for her daughter and she was cured. You will find a statement of Mrs. Stephens enclosed. Wish you much success and hoping my testimonial will influence others who suffer from any form of Eczema, I am
